NATIONAL GUARD TO GO INTO CAMP

The Dates for North Carolina Troops Decided Upon at Raleigh Yesterday.

AFFAIRS AT STATE CAPITAL

Fatal Shooting Sunday—Bank of Hoke and Another for Princeton Chartered—Liquor Case From Asheville—Notes.

(Special Star Correspondence.)

Raleigh, N. C., May 15.—The encampments, by regiments of the North Carolina National Guard, this Summer will be held July 10th to August 10th, this decision having been reached in a conference just held here between Governor Kitchin and the advisory board of the North Carolina National Guard.

The conference resulted in the selection of the following dates for the regiments to be in camp: First Regiment, July 10th to 17th, inclusive; Second Infantry, July 20th to 27th, inclusive; Third Regiment, August 3rd to 10th. It was decided to take steps at once for the erection of two badly needed storehouses for Camp Glenn, Morehead, where the encampments will be held. One will be for the quartermaster's supplies up in the camp ground, and the other will be out on the rifle range, for the ordnance supplies.

Robert Green, colored, was probably fatally shot Sunday by Winder Womack, colored, in a quarrel in which a woman that both admired was the cause of the "bad blood." Womack used a Winchester rifle and three shots took effect, one in the thigh being regarded as most serious. Womack ran as soon as he shot and evaded a great crowd of pursuers who gave chase as soon as the shooting occurred near Johnston street station. Later the officers found the fugitive hidden in a mattress into which he had hid himself, stitched in the house of a friend. The wounded negro is receiving medical attention in St. Agnes hospital.

The last of the furniture was moved out of Yarborough Hotel today preparatory for the general remodeling and enlargement for the new lessee, B. H. Griffin, of Goldsboro, $50,000 being the amount to be expended in this work.

Commissioner of Agriculture Graham, just back from a trip into Iredell, Lincoln and Catawba counties, says dry weather and cold Spring have delayed considerably the germination of cotton seed and other crops but that the lands have been well prepared and with recent rains and warmer weather the cotton and corn should develop rapidly.

The Bank of Hoke, of Raeford, Hoke county, was chartered today with $25,000 capital authorized and $5,000 subscribed by W. J. Johnson, J. C. Thomas and others for general banking business at Raeford, the county seat of the newly created county of Hoke, formed from portions of Cumberland and Robeson counties.

Another new charter is for the Merchants' and Farmers' Bank, of Princeton, Johnston county, capital $5,000 subscribed and $25,000 authorized, the long list of incorporators including J. H. Edwards, Chas. Edwards and others.

Dr. W. L. Poteat, president of Wake Forest College, has accepted an invitation to deliver an address before the State Press Association at the annual session June 27th, at Lincolnton, his theme to be "The Liberty of the Press."

The only State case in connection with the calendar for the 15th district to be called Tuesday morning is State vs. Boynton, from Asheville, this being one of several noted liquor cases coming from this mountain metropolis. He was indicted for selling liquor and the prosecution offered to show that Boynton had government license to sell liquor, this to be taken as evidence of guilt under the State law. The defense objected on the ground that government license was to sell at a place other than that where the sales were alleged by the State as the place of sale. There was objection also to offering in evidence the fact that he was a near beer dealer. Also there was objection to showing the possession of whiskey on the ground that this might be taken as evidence that he sold whiskey. These are the grounds of appeal from trial and conviction below. The police justice gave him one year on the roads, the appeal to the Superior Court changing the sentence to 18 months on the road. Now it remains to be seen what will be the outcome of the appeal to the Supreme Court.

DEADLOCK IN SENATE.

Two Ineffectual Ballots for Election of President Pro Tempore.

Washington, May 15.—Two ineffectual ballots for the election of a President pro tempore were taken in the Senate today. Despairing of breaking the deadlock, leaders on both sides abandoned further attempts for the day and the joint resolution for election of United States Senators by direct popular vote was taken up.

Both ballots today were identical, resulting: Gallinger and Bacon 33 each; Clapp 7; Bhistory, Lodge and Tillman, one each.

HOLD IMPORTANT CONFERENCE

All Nations Represented at Gathering of International Union for Protection of Industrial Property — Details.

Washington, May 15.—With every nation on earth represented for the first time since its establishment in 1883, the International Union for the Protection of Industrial Property began its fourth conference here today to consider many new industrial problems, which have arisen either directly or indirectly from patent and trade mark laws.

The attention of the entire industrial world will be directed toward this gathering, which may continue six weeks. The conference is expected to negotiate many treaties affecting various industrial problems. It is known now that there will be seven propositions in the form of proposed treaties submitted by six countries as soon as the Congress is organized. The nature of these propositions will be kept secret until made public by the delegates of the various countries. Great Britain has given notice of two proposed treaties, while one each will be submitted by France, Germany, Netherlands, Sweden and Switzerland. It is likely also that the International Bureau at Berne, which is maintained as a sort of bureau of information by the nations signatory to the treaty of Paris and subsequent treaties, may advance several questions for discussion

The programme today included the presentation of the credentials of delegates and other routine matters incident to organization. All the proceedings of the conference are conducted in French and are secret.

Speeches of welcome will be delivered tomorrow by Secretary of State Knox and Secretary of the Interior Fisher.

Delegates to the meeting have full plenary powers, including authority to draft and sign treaties and agreements in the names of the countries they represent. In nearly every instance the chairman of a delegation is the highest diplomatic officer of his country now in the United States.

While this meeting is called the "fourth one of revision," it is in reality the sixth meting. The International Union was organized in Paris in 1883. The second conference was in Rome in 1885, the third in Madrid 1891, and the fourth in Brussels in 1897, and the fifth at the same place in 1900. The delegation to the 1897 Congress were not empowered to sign the treaties enacted, and therefore the second Brussels conference was necessary.

There are eighteen nations in addition to the United State now adherent to the treaty of Paris and subsequent conventions. All of them clearly signified their intention to send delegates. They are Belgium, Denmark, Great Britain, Japan, Norway, Netherlands, Switzerland, France, (Turnis although under France, sends a separate delegation), Portugal, Italy, Sweden, Dominion Republic, Germany, Hungary, Mexico and Spain.

The following nations, which were non-adherents to any of the previous conventions, but who accepted the invitation to atend this conference, making it the first one at which every nation has been represented, are the Dominion of Cando, Chile, Costa Rica, Greece, Hayti, Panama, Paraguay, Persia Russia, Siam, Salvador, Uruguay, Columbia, Ecuador, Honduras, Liberia and Peru. These nations are expected to become a part of the International Union at the Washington Congress. Until they do they have no right to vote upon any of the propositions but may discuss them at will.

Commissioner of Patents Edward Bruce Moore, as head of the American delegation automatically became president of the present conference, but accordingly to custom he will, after the delivery of his speech of welcome place before the congress the name of one of the participants who will be voted in by the delegation. The other members of the American delegation are Charles H. Duell, of New York, Frederick P. Fish, of Boston, Melville Church, of Washington, D. C., and Robert H. Parkinson, of Chicago.

Many entertainments have been arranged for the delegates to the conference during the time the conference is in session.

DISMISSED CONTEMPT CASE.

Action of Supreme Court in Favor of U. S. Attorney Wise.

Washington, May 15.—The Supreme Court today dismissed for want of jurisdiction the appeal from the sentence of contempt recently imposed by Judge Lacombe, in the United States Circuit Court, at New York, on United States District Attorney Henry A. Wise. The attorney had refused to obey the order of the court to return to Lawrence H. Mills and associated importers their books seized when they were arrested on charges of violating the customs laws.

Judge Lacombe held that the seizure of the books without a search warrant violated the constitutional guaranty against unreasonable search and seizure of papers, and against self-incrimination.

The Supreme Court held that the appeal should have been brought from the order to return the books, and not from the order holding Wise in contempt.

Removal Sale of the French Millinery Parlors. All goods at cost beginning Monday, May 15th. tf.

ACTION IN FAVOR OF LABOR LEADERS

Supreme Court Sets Aside Jail Sentences of Gompers and Others.

END OF THE CONTEMPT CASES

Grew Out of Litigation of Bucks Stove Company Against Federation—Court Holds It Was Civil Contempt—Details.

Washington, May 15.—Samuel Gompers, John Mitchell and Frank Morrison, president, vice president and secretary of the American Federation of Labor, respectively, stepped from without the shadow of the jail today when the Supreme Court of the United States set aside their sentences of imprisonment for contempt growing out of the litigation between the Bucks Stove & Range Company and the Federation.

The highest tribunal in the land has left with the lower court, however, the right to re-open the contempt proceedings. This grant of power, probably will not be accepted and the case practically is ended with today's decision.

The basis of the court's decision was that the proceedings brought against the labor officers was for civil contempt which could be punished only by the imposition of a fine. The sentence of the lower court to imprisonment was the penalty for criminal contempt and in the premises it was, therefore not a legal punishment.

The case, which grew out of the so-called boycott of the stove corporation by the American Federation of Labor three years ago, is one of the greatest importance alike to Union labor and to the employers of Union labor. The Supreme Court holds that the published or spoken utterance of organized labor can be enjoined or attacked legally because organized labor is a combination, and as such, relinquished the rights of individuals. It also establishes the fact that legal prosecution can be levelled not only at the Union itself, but at its officers as well.

In handing down its unanimous opinion, read by Justice Lamar, the court reviewed the case brought by the Bucks Stove & Range Company against Gompers, Mitchell and Morrison, seeking to enjoin them from placing the company on its "unfair" and "we don't patronize" lists published regularly in the American Federationist, the official publication of the Federation. The publication, the company contended, constituted a boycott.

The Supreme Court of the District of Columbia, after hearing, granted a temporary injunction December 18, 1907, making it permanent three months later. The court's order prohibited the defendants from attacking the manufacturing company in their publication or in other unlawful ways.

Shortly after the order was entered the manufacturing company appeared in court charging contempt against the three labor officials. They were found guilty and sentenced, Gompers to 12 months in jail, Mitchell to nine months and Morrison to six months. The sentences were appealed to the District Court of Appeals without avail and the matter then was laid before the Soupreme Court.

Before the Supreme Court had opportunity to hear the testimony, the Bucks Stove & Range Co., had settled all its differences with the defendants and all that remained for the court of last resort to do was to rule in the contempt feature of the long-fought litigation.

Justice Lamar devoted considerable space to a technical decision of civil as differentiated from criminal contempt. In the former only a fine was permissable, he pointed out, while in criminal contempt jail sentences could be imposed. The case under consideration, he said had been brought by a corporation in conjunction with a suit in equity and a fine to be paid to the corporation, alone could be imposed. Had the court, whose injunction had been disobeyed, felt aggrieved, it could have brought criminal contempt proceedings in the premises and have inflicted a jail sentence. It did not do this, however, and the opinion held that it erred in imposing in a civil contempt case a penalty applicable only to litigation involving criminal contempt.

The opinion, in conclusion, reads:

"The judgments of the Court of Appeals and the Supreme Court of the District are revoked and the case remanded with direction that the contempt proceedings instituted by the Bucks Stove & Range Company be dismissed, but without prejudice to the power and right of the Supreme Court of the District of Columbia to punish by a proper proceeding contempt, if any, committed against it."

In view of the fact that the original cause of the long drawn out litigation has been adjudicated out of court it is considered unlikely that the District Supreme Court will take advantage of the Supreme Court's decision to re-open proceedings against the three labor officials.

Mitchell is Pleased.

Philadelphia, May 15.—"Well, I am glad to hear it," said John Mitchell, when he stepped from a Pennsylvania train here this afternoon and was told that the United States Supreme

(Continued on Page Eight.)

SCORES INJURED BY STRIKERS

Furniture Workers Attack the Police at Grand Rapids, Mich.—Fierce Fight Raged Many Hours—Women Active.

Grand Rapids, Mich., May 15.—At least a score of policemen were injured and many members of a mob of 2,000 striking furniture workers and sympathizers, were hurt in a riot at the plant of the Widdicomb Furniture Company tonight. Several of the injured may die.

After a fierce battle with revolvers clubs, stones and missiles in which the police were badly beaten, a fire engine company attacked mob with streams of water and succeeded in quelling the disturbance to a considerable extent. Many women were active among the rioters.

The trouble started when a mob of about 300 men, women and boys attacked a closed automobile driven by Ralph Widdicomb, of the furniture company, who was taking several breakers from the factory. One of the policemen on guard at the plant attempted to make an arrest and the mob closed in on him. Other policemen with drawn revolvers quickly arrived, but were overwhelmed. A squad of reserves were rushed to the scene and soon began firing and the fire was returned by the rioters. Several of the police officers were knocked senseless by missiles hurled or swung by women.

Mayor Ellis made a fruitless attempt to quell the riot before the fire department was summoned. A terrific battle ensued as the firemen began to lay their lines, in which the mob was finally overcome and broken up. The strike breakers were spirited away and while comparative quiet now reigns, a force of officers will patrol the district all night.

OFFICER'S HORSE STOLEN.

Animal Taken While Officers Were Making Some Arrests.

Mounted Officer Frank George had his horse stolen from him on Red Crass street, just beyond the hospital, shortly before 1 o'clock this morning and although a careful search was being carried on there was no trace of the animal up to the time the Star went to press. Officer George and Officer J. H. Davis were called to a house just beyond the hospital to quell a disturbance and left their horses in the street. When they returned Officer George's horse was gone, but Officer Davis' animal was standing where it had been left. It is thought that a negro rode the horse off as a negro was seen on the street just before the officers went into the house. Officer George searched as far as East Wilmington without any trace of the animal and then announced his intention of proceeding on toward Scott's Hill. Some of the citizens of Scott's Hill were notified by telephone of the theft of the horse.

There were five negro women mixed up in the fight and three were arrested and brought to the City Hall. The fourth, Carrie Williams, was painfully cut and had to be sent to the hospital for attention. The other woman got away.

BATH TUB TRUST CASE.

Took a Twist That May Affect Other Suits Now Under Way.

Washington, May 15.—The government's case against the so-called bath tub trust took a twist today, which may involve an interpretation of the immunity statutes by the Supreme Court of the United States and may possibly thereby affect nearly every anti-trust prosecution now under way.

The Calwell Lead Company, one of the defendants in the government's civil suit, asked the Supreme Court to review Judge Howland's recent decision in the United States Circuit Court in Philadelphia, that one defendant in the case, when called by another as a witness could not claim the protection of the immunity statutes. The Department of Justice holds that Congress intended the immunity statutes to protect witnesses testifying for the government. Judge Hootland so ruled. Department of Justice officials declare that to allow immunity to one defendant in an anti-trust suit because he is called as a witness by a co-defendant, would practically emasculate the Sherman law.

OUTLINES.

The government yesterday won its case in the Supreme Court of the United States against the Standard Oil Company, of New Jersey, in that it is a conspiracy and monopoly in restraint of trade. The decree of the lower court was affirmed——The Supreme Court yesterday decided in favor of the labor leaders, setting aside the prison sentences against Gompers, Mitchell and Morrison in the contempt case which grew out of the suit of the Bucks Stove & Range Co., against the Federation——The International Union for the Protection of Industrial Property began its fourth conference in Washington yesterday ——The Supreme Court handed down a decision in the safety appliance cases yesterday, holding that railroads must keep in repair automatic couplers and other appliances described by law——New York markets: Money on call steady 2 to 21-2 per cent., ruling rate 2 3-8, closing bid 2 3-8, oeffred at 2 1-2; spot cotton closed quiet 20 points lower, middling uplands 15.80, middling gulf 16:05; flour was quiet and about steady; wheat spot irregular, No. 2 red 1.00 asked elevator and 1.01 nominal fob afloat; corn steady, export nominal, No. 2, corn 60 1-2 nominal fob afloat; rosin steady, turpentine easy.

REBELS' APPROACH CAUSE OF ALARM

People of Chihuahua Fear City Will be Destroyed by an Attack.

A CONFERENCE FOR PEACE

Madero and Federal Envoy Discussed Siuation Again Yesterday—Rebel Activities in the Republic.

Chihuahua, Mexico., May 13, (via El Paso, Texas, May 15.)—Chihuahua now stands in direct fear of an attack and many people feel that any resistance is hopeless. The 2,000 insurrectos, who are approacaing from the south today reached Escalon a few miles below Juarez, as they proced the insurrectos are tying up the National Railroad to prevent pursuit by Federal troops. The Federal troops south of here are all retreating to Chihuahua having found it impossible to stem the onward march of the insurrectos.

An armored train filled with Federal troops which went south to open the railroad soon returned with the report that the enemy was in overwhelming numbers but an attack from the train would have meant annihiliation. The belief is that the insurrectos will soon take Jiminez together with the branch railroad running to Parral, and then will encamp around Chihuahua to attack the city in conjunction with part of Madero's forces from Juarez.

The Federal troops are regarded as effectively bottled up. Only 1,500 Federals are in Chihuahua City. General Rabago's 1,200 men, who started to Juarez, are cut off from return by an insurrecto band which came in behind them.

The situation in the city is becoming daily more desperate. Supplies are scarce. All train and telegraph communication has been cut off for two weekes.

Governor Ahumanda today issued an order forbidding the taking out of the city of any food stuffs, despite the appeals of many surrounding mining camps. Most people, including the 700 or 800 American residents used up all their reserve supplies, thinking peace was in prospect.

Many Americans have appealed to Consul Marion Letcher for protection in case of an atack.

More fortifications are being hurriedly built. The cathedral and all the outlying houses are well fortified and trenches have been built across streets that lead to the heart of the town.

Word that the war was to be continued caused general disappointment, especially as suffering among the poor already seemed to have reached the limit of endurance. Beggars line the streets. Hunger drives some to the extreme of entering restaurants and grabbing food from tables.

Juarez, May 15.—Provisional President Francisco I. Madero, Jr., at the conclusion of a conference with Judge Carbajal, the Federal peace envoy, tonight announced that there was a strong probability that peace would be restored in Mexico within a short time.

"Judge Carbajal brought some propositions," said Senor Madero to an Associated Press representative, "and I made some modifications in our original propositions. In fact, these concessions, slight though they may be, were made to show our willingness to meet the government half way; and, after our military triumphs, it more than indicates our good disposition to treat for peace."

Senor Madero said that the next move on the peace checker board should be made by the Diaz government, but he talked as if tomorrow there would be a favorable reply from the government. This immediately would end the revolution.

There was evident on the other hand, a determination to prosecute the war should the government refuse to accede. He gave the impression that the affair had reached the point of an ultimatum and that the die would be cast tomorrow.

Today preparations for a vigorous pushing of the revolution, at a standstill for the time being because of the victory of Juarez, and the first serious efforts to make the provisional government of Mexico something more than a name, were grimly evident.

The war situation may be epitomized as follows:

On to Chihuahua and then Mexico City. This plan is not admitted or even discussed in public by the revolutionists, but it isin the air.

DEPUTY'S SLAYER LYNCHED.

Negro Dragged From Swainsboro Jail and Riddled With Bullets.

Swainsboro, Ga., May 15.—At 11 o'clock Saturday night, 20 minutes after Deputy Wood, whom he had shot, died, John McLeod, a negro, was dragged from Emanuel county jail and hanged by a posse. The body was suspended from a tree and riddled with bullets. Hidden keys to the jail were found and the victim quickly strung up. Deputy Sheriff Wood was shot by McLeod while trying to arrest the negro on a minor charge.

VETERANS AT LITTLE ROCK

Gathering There for Great Reunion This Week—Fifteen Trains Pass Memphis—Programme as Outlined for Them.

Little Rock, Ark., May 15.—With flags and bunting in evidence everywhere; with every arrangement perfected to properly care for the comfort of thousands of visitors and with ideal weather conditions, the people of Little Rock are today welcoming those who are pouring in to attend the twenty-first annual reunion of the United Confederate Veterans. Special trains are arriving over all railroads and it is estimated that ten thousand veterans will be in attendance.

The Sons of Veterans, who are arriving in large numbers, will hold their first session tonight.

Accommodations Are Ample.

Accommodations have been provided by the executive committee for six or seven thousand old soldiers. Camp Shaer has been opened and a thousand or more tents supplied with clean white cots are awaiting every applicant. Lunch stands and a huge commissary have been established for the accommodation of the veterans.

The convention will open Tuesday, with addresses of welcome and responses. In the afternoon the annual oration will be delivered by Dr. R. C. Cave, of St. Louis. On Wednesday the real business will be taken up, when reports of the various committees will be read and considered. Officers will be elected and the next meeting place will be chosen.

Memphis, Tenn., May 15.—Fifteen special trains carrying thousands of veterans and visitors passed through Memphis this morning en route to Little Rock. Many veterans and sons of veterans arrived here last night and remained over until today. Gen. George W. Gordon, commander in chief, arrived from Washington Sunday morning. He left on one of the special trains for Little Rock early today.

Railroad men say that 30 special trains have been engaged to carry the crowds through the Memphis gateway.

Little Rock, Ark., May 15.—The first session of the Sons of Veterans was held tonight in the Y. M. C. A. hall. Addresses were delivered by the National officers.

On the eve of the reunion the following message came from President Taft to be read when the first session is convened:

"The White House,
Washington, May 15, 1911.

"To the Confederate Veterans Who Are Now Assembled in Little Rock I Send Heartiest Greetings and Express the Hope that They Will Have a Pleasant and Successful Reunion.

"The men of the Confederate Army fought for a principle which they believed to be right and for which they were willing to sacrifice their lives, their homes—in fact all those things which men hold most dear. As we recognize their heroic services so they and their descendants must honor the services rendered by the gallant sons of the North in the struggle for the preservation of the Union. The contending forces of nearly half a century ago have given place to a United North and South, and to an enduring Union, in whose responsibilities and glorious destiny we equally so gratefully share.

"During my visits South it has gratified me greatly to see those who fought for the blue and those who fought for the gray mingled together, worship the old flag and feel a common pride in the deeds of heroism that were displayed in the Civil War. One of the most pleasant incidents of my visits through the South was the evident desire on the part of its people to confirm to the world that we are getting closer and closer together."

REVISING WOOL SCHEDULES.

Bill Being Drafted by Ways and Means Committee.

Washington, May 15.—Democratic members of the Ways and Means Committee of the House undertook today the task of drafting a bill revising the two wool schedules. The committee debated the situation for three hours without attempting to reach a decision as to whether the bill shall place raw wool on the free list or reduce the tariff 50 per cent. or more.

The paramount issue in revising the schedule is revenue. To put raw wool on the free list would cut off at once $21,000,000 in revenue, while the entire wool schedule brings a revenue of more than $40,000,000. By cutting the duty on raw wool to five or six cents a pound, and making provision for a sliding reduction annually of one cent, some Democrats figure that the importations would increase sufficiently when added to increased importations in manufactured wool due to a 50 per cent. reduction in that tariff, to cause no disturbance in the government exchequer.

HOMICIDE NEAR WILSON.

Negroes at Saw Mill Engaged in Fatal Row Sunday.

Wilson, N. C., May 15.—Yesterday afternoon a homicide occurred at Sauls and Edgerton's saw mill at Kenly, near here, when Ben Herring killed another negro named Tom Williams, with a piece of scantling. Herring and Williams commenced wrestling at first in fun, but afterwards had words and Herring picked up a piece of timber and struck Williams over the head killing him. It is said that both parties had been drinking. Herring escaped and has not yet been arrested.

OIL TRUST LOSES IN SUPREME COURT

The Sherman Anti-Trust Suit Against Standard Won by Government.

ORDERS COMPANY DISSOLVED

Giant Corporation Declared a Monopoly in Restraint of Trade—Court Unanimous as to Main Features of Decision.

LEAD OIL TRUST . . . . . .

THE SUPREME COURT HOLDS:

That the Standard Oil Company is a monopoly in restraint of trade.

That this giant corporation must be dissolved within six months.

Corporations whose contracts are "not unreasonably restrictive of competition" are not affected.

Other great corporations whose acts may be called into question will be dealt with according to the merits of their particular cases.

The court was unanimous as to the main features of the decision, Justice Harlan dissenting only as to a limitation of the application of the Sherman anti-trust law.

President Taft and cabinet will consider immediately the entire trust situation and the advisability of pressing for a Federal incorporation act.

A decision in the Tobacco Trust case, which was expected simultaneously, was not announced today, and may be handed down on May 29.

Washington, May 15.—The Standard Oil Company of New Jersey, and its 19 subsidiary corporations, were declared today by the Supreme Court of the United States to be a conspiracy and combination in restraint of trade. It also was held to be monopolizing interstate commerce in violation of the Sherman anti-trust law. The dissolution of the combination was ordered to take place within six months.

Thus ended the tremendous struggle of years on the part of the government to put down by authority of law a combination which it claimed as a menace to the industrial and economic advancement of the entire country.

At the same time the court interpreted the Sherman anti-trust law so as to limit its application to acts of "undue" restraint of trade and not "every" restraint of trade. It was on this point that the only discordant note was heard in the court. Justice Harlan dissented, claiming that cases already decided by the court had determined once for all that the word "undue" or "unreasonable" or similar words, were not in the statute. He declared that the reasoning of the court in arriving at its finding was in effect legislation which belonged in every instance to Congress and not to the courts.

Ever since the decree in this case in the lower court, the United States Circuit Court for the Eastern District of Missouri, was announced, hope had been expressed by the "business world" that the law would be modified so as not to interfere with what was designated as honest business. To-night that section of the opinion calling for the use of the rule of reason in applying the law is regarded in many quarters as an answer to the prayers of the "business world."

The opinion of the court was announced by Chief Justice White. In printed form it contained more than 20,000 words. For nearly one hour the Chief Justice discussed the case from the bench, going over most of the points in the printed opinion, but not once referred to it in order to refresh his memory. Before him sat a distinguished audience of the most famous men of the country. Senators and representatives left their respective chambers in the capitol to listen to the epoch making decision of the court. Most eager to hear were Attorney General Wickersham and Frank B. Kellogg, special counsel of the government, who had conducted the great fight against the Standard Oil. None of the brilliant array of counsel for the corporations or individual defendants was present in the court during the reading of the opinion. Today as on previous decision days for months past, rival broker agents with messengers in line to the various telephone and telegraph instruments throughout the capitol were on hand, but to their dismay the announcement of the decision was not begun until an hour after the closing of the stock markets.

Many expected that the decision of the court in the dissolution suit against the tobacco corporation would be handed down immediately after the decision in the Standard Oil case. This was not done, however, but the

SIXTEEN TO ONE.

The Score of Boardman Team Over Orrum High Schoo Saturday.

(Special Star Correspondence.)

Boardman, N. C., May 13.—In a one-sided contest the locals defeated the Orrum High School team this afternoon, the score being 16 to 1. The visitors scored their single tally in the first inning on an error of the local's left field, after that there was nothing doing. Covington pitched a splendid game and several of the school boys fanned the air three times in succession, in a fruitless effort to connect with the horsehide. The support accorded him is worthy of mention also, every man covering his territory in fine style. Score:
Boardman .. ..203 024 32x—16 15 3
Orrum .. ...100 000 000— 1 3 8
Covington and Bartley; Shepherd and Spivey.

H. T. LEWIS RESIGNS.

Tom Taylor Named as Temporary Captain of Y. M. C. A. Team.

The Y. M. C. A. accepted with regret, at a meeting of the baseball team last night, the resignation of H. T. Lewis, better known as "Happy," as captain of the first team. In sending in his resignation he expressed the fact that an older head was needed to run the team which is stronger this year than it has ever been. The members in accepting his resignation were unanimous in their expression of their appreciation of his tireless efforts in behalf of the team. The members then elected Tom Taylor as temporary captain and with the few changes that are contemplated for next Saturday the team will be much stronger than it has been at any time during the season.

BROKE WALKING RECORD.

Harry W. Fitzpatrick Goes 75 Yards in 11 4-5 Seconds.

New Orleans, May 15.—Harry W. Fitzpatrick, president of the Southern Association of the Amateur Athletic Union, broke the world's walking record for the 75 yard walk at the Druid Festival games at the fair grounds race course yesterday, according to a signed statement given to the press today by the secretary of the association.

The record was formerly held by F. J. Mott, of New York, and was made in 1878. Fitzpatrick's time was 11 4-5 seconds. Mott's record was 12 1-4 seconds.

COURT AT LUMBERTON.

Busy Monday at Robeson's Capital—Ex-Sheriff McLeod Operated On.

(Special Star Correspondence.)

Lumberton, N. C., May 15.—An effort will be made to relieve the congested condition of the jail at the present term of court. There are about 30 inmates. Gus Hunt will be tried for murder Thursday.

This has been an unusually busy day in the Mayor's court, morning and afternoon sessions being held. At the morning session five negroes were bound over to higher court for blockading. Three gave bond but the two others went to jail. Two young white men paid $2.50 and costs each for an affray. One case of drunk and disorder was dismissed. At the afternoon session five young white men were charged with gambling. They were taken by surprise and were, of course, not ready for trial. One of the defendants turned State's witness. The trial was continued until 9 o'clock tomorrow, four of the defendants giving $200 bond each. The fifth man was not required to give bond.

Mr. Geo. B. McLeod, who was carried for treatment to Fayetteville last week, was operated on this afternoon and is reported tonight as doing well. His early recovery is confidently expected.

An exciting run-away occurred on Main street this morning when a pair of horses belonging to Mr. Archie Morrison took fright at a motorcycle. The horses were attached to a disc harrow which went against a 'phone pole with sufficient force to demolish the machine. The driver saved himself by jumping. The horses escaped injury.

The little three-year-old son of Mr. and Mrs. L. B. Blackburn had a narrow escape from probably fatal injuries this morning. The child was playing in the street near Mr. J. E. Britt's stables when a horse dashed out, running over the child. Fortunately it received only slight scratches, though terribly frightened.

Saved Child From Death.

"After our child had suffered from severe bronchial trouble for a year," wrote G. T. Richardson, of Richardson's Mills, Ala., "we feared it had consumption. It had a bad cough all the time. We tried many remedies without avail, and doctors' medicine seemed as useless. Finally we tried Dr. King's New Discovery and are pleased to say that one bottle effected a complete cure, and our child is again strong and healthy." For coughs, colds, hoarseness, lagrippe, asthma, croup and sore lungs it's the most infallible remedy that's made. Price 50c and $1.00. Trial bottle free. Guaranteed by R. R. Bellamy.

Removal Sale of the French Millinery Parlors. All goods at cost beginning Monday, May 15th. tf.

An Opportunity Free

We can teach you without cost and without trouble to yourself how to keep books, and give you a good general idea of business, if you will bring your money to this bank, deposit it, get you a check book, and, when you have to use money, use a check on this bank instead of the money. From time to time This Bank will render you an account, and will be glad to explain anything in connection with it that you do not understand.

The officers would like to talk with you about an account.

The Southern National Bank

COURT AT LUMBERTON.

Address by Mr. Watrous—Runaway Accident—Goat Scrape.

(Special Star Correspondence.)

Lumberton, N. C., May 15.—A special term of court continuing for one week convened here today with Judge C. M. Cooke, of Louisburg, presiding. This special term is ordered to try criminal cases, and relieve the crowded condition of the jail, the regular criminal term not being held until July. The special term will be followed by a regular one week term to try civil cases. This is a bad time of the year for people in the rural districts to leave their work and the attendance at court will be made up of people having business with it.

The people of Lumberton, and especially the members of the Civic Association, are to be congratulated upon being allowed the privilege of hearing the able and instructive address of Mr. Richard B. Watrous, of Washington, D. C., secretary of the American Civic Association, at the Opera House Friday night. Every seat was occupied, many were standing and many were unable to gain admittance at all. Mr. Watrous' subject was "Making a City Beautiful." His talk was illustrated by many stereopticon views, taken from scenes in different parts of the country. If, after hearing and seeing what was said and shown at the Opera House Friday night, our people don't go to work with renewed energy to make Lumberton the most beautiful and healthful town in this section of the country, it will be a great surprise. Mr. Watrous expressed himself as being very greatly pleased with Lumberton and surrounding country.

Mr. Emory Prevatt, one of the efficient rural carriers from this place, together with two sisters, were injured in an automobile wreck Thursday night. Mr. Prevatt took his sisters out for a ride, and when they had gone but a short distance, he lost control of the car and it went in the ditch. One of the ladies suffered a broken arm, while the other was badly bruised as was Mr. Prevatt. He is not yet able to be on duty, but hopes to be out by Monday.

Blind tigers were in tough luck Saturday, five colored ones having been arrested and committed to jail. The evidence against some of them is said to be very strong.

Last Friday as Mr. Charles Prevatt was on his way home from his stables, riding in a buggy and leading a goat by a halter, the goat pulled back and the halter slipped off. Billie finding himself free, lost no time in changing his course and soon found his way into a stable belonging to Mr. Rowland Dees. Mr. Prevatt asked someone near to catch the goat and bring him out, but the owner of the stables forbade anyone to go after his goatship. Mayor White was appealed to and he instructed Chief Redfern to "go and get that goat." The Chief went, but he was informed that if he entered the stable to recover the goat without the necessary papers there would be trouble. Chief Redfern was not hunting trouble—he was after the goat, and when cautioned he went away as he came, without the goat. However, he returned in a short time with claim and delivery papers, and then Billie was released from prison and allowed to go on home. We understand that the matter will go to court, and as able counsel will appear on both sides some butting may be done before the matter is adjusted.

Mr. J. E. Boylan, of Wilmington, was here Saturday in the interest of the Globe Baking Company, of that city. He made arrangements with Mr. J. H. Wishart to handle the firm's goods and Mr. Wishart will receive his first shipment Monday. Bread baked in the forenoon will be delivered here for supper.

WOMAN'S GOLF TOURNAMENT.

Atlanta Golfer Won Qualifying Round in First Event.

Atlanta, May 15.—Over a field of 43 entries, Miss Alexa Stirling, the thirteen-year old Atlanta golfer, won the qualifying round in the first annual Southern Woman's Golf Tournament, here today. She turned in a medal score of 95 for the eighteen holes, winning the cup offered for the event.

Mrs. Daley, of Nashville, was second, with 98, and Mrs. Paine, of Atlanta, third, with 102.

Nashville, Tenn., won the team cup, defeating Atlanta by one stroke.

Knoxville was taird and Macon was fourth.

The scores were 308, 309, 326, and 367, in the order named.

GOVERNOR OF JERUSALEM.

Has Been Recalled as a Result of Recent Trouble.

Constantinople, May 15.—The governor of Jerusalem has been recalled on account of the trouble which has arisen over the operations of an English expedition accused of having excavated beneath the Mosque of Omar. This expedition was under the leadership of Capt. Montague Parker, a brother of the Earl of Morley, and after it had become known that the mosque had been profaned and relics removed by the archeologists, the governor was mobbed for having permitted foreigners to carry on their work.

Foley Kidney Pills

TONIC IN ACTION - QUICK IN RESULTS

Give prompt relief from BACKACHE, KIDNEY and BLADDER TROUBLE, RHEUMATISM, CONGESTION of the KIDNEYS, INFLAMMATION of the BLADDER and all annoying URINARY IRREGULARITIES. A positive boon to MIDDLE AGED and ELDERLY PEOPLE and for WOMEN.

C. H. Ellsworth, Rochester, N. Y., says: "For sometime past I have been bothered with weak kidneys and bladder trouble. The action was very irregular and attended with much pain. Foley Kidney Pills gave me immediate relief and strengthened me wonderfully, and I am more than pleased to recommend their use."—R. R. Bellamy.

MRS. TAFT MUCH BETTER.

President's Wife Will be Able to Return Home on Thursday.

Washington, May 15.—President Taft received assurances from New York late this afternoon that the condition of Mrs. Taft had improved so much that she would be able to return to Washington Thursday. The President felt so much relieved at the news that he went to a local theatre tonight. Announcement was made at the White House that the special programme which Mrs. Taft had mapped out for the Spring will be adhered to. The dinner to the Fur Seal Commissioners on Thursday night and the garden party, which is on the programme for Friday, will be given. Miss Helen Taft will act as mistress of the White House on both occasions.

Meriden, Conn., May 15.—Abiram Chamberlain, governor of Connecticut, from 1903 to 1905, died at his home here tonight, after an illness of two years. He was prominent in business and financial circles, was formerly vice-president of the American Bankers' Association and president of the Meriden Fire Insurance Company.

A Welcome Change

Smoke curling up from the farmhouse chimney as the men are coming in from the fields, gives a pretty suggestion of a good supper and a comfortable home. But it also means a hot, tired woman, working hard over a blazing fire.

Your wife can escape this with a New Perfection Oil Cook-stove.

A New Perfection keeps a kitchen many degrees cooler than any other range, yet it does all a coal or wood range can do. It saves time, labor and fuel. No wood to cut; no coal to carry; no ashes; no soot. With the New Perfection oven it is the best cooking device you can find anywhere.

Made with 1, 2 and 3 burners, with long, turquoise blue enameled chimneys. Handsomely finished throughout. The 2- and 3-burner stoves can be had with or without a cabinet top, which is fitted with drop shelves, towel racks, etc.

Dealers everywhere; or write for descriptive circular to the nearest agency of the

TRINITY COMMENCEMENT.

All Arrangements Now Complete—Lectures—College News.

(Special Star Correspondence.)

Trinity College, Durham, N. C., May 15.—All arrangements for commencement have been completed, and the invitations will be sent out in a few days. The attendance this year promises to be unusually large. It has been the policy of the college for a number of years, to secure for commencement, speakers who are leaders of thought in the different walks of life, and the college authorities are especially fortunate this year in securing Dr. Charles E. Jefferson and Mr. Jacob A. Riis. Efforts have been made in previous years to secure both of these men, but on account of previous engagements it has been impossible for them to come. They have been in great demand in all sections of the country.

The meeting of the Alumni Association this year promises to be the largest ever held. The executive committee of the Association has held a meeting and made provsions for the annual dnner, which wll be held Tuesday afternoon of commencement week. The annual address will be delivered by Hon. W. D. Turner, of Statesville.

The preliminary contest to select representatives for the graduating class who will speak on Tuesday evening of commencement week, will be held in a few days.

Last Monday afternoon and evening Prof. J. A. Lomax, of the University of Texas, delivered two most interesting lectures in Craven Memorial Hall on "Types of American Ballads." Prof. Lomax went from here to deliver these lectures before the students of several of the Northern Universities. On Wednesday afternoon, Prof. Meritt, of the Department of Greek, delivered a lecture on "Electra," and Thursray night Pro. Brown talked on "The Canterbury Pilgrims," both of which plays will be presented on the college campus next week. Everything is being done to acquaint the students with the selection which will be given by the Coburn Players. The stadium is being erected on the campus, and everything will be ready by the time.

The work on the grounds is being carried on very rapidly, and it is expected that the new driveway will be completed by commencement. The new bell is epected within a few days and it will be stationed on a temporary tower that is being erected for it near the Crowell Science building.

Mr. Benjamin F. Harrison, of the class of 1897, has been elected secretary of State of Oklahoma. Mr. Harrison has taken a very active interest in public affairs since leaving college, and is one of the most influential men in his State.

Several prominent speakers have been secured for the Sunday School Institute that will be held at Trinity College, beginning July 19. Mr. W. B. Cooper, of Wilmington, is chairman of the committee of the Sunday school board, which has the Sunday School Institute in charge. The institute promises to be one of great interest.

The regular final examinations will begin May 22, and will continue through June 3rd. Examinations for the Senior Class will begin May 17th.

THE ASHEVILLE RAIDS.

Police Taking Shot at Tigers Under Special Legislative Act.

(Special Star Correspondence.)

Asheville, N. C., May 15.—Seventy-six barrels of whiskey, a case of whiskey, and a quantity of beer are now in the hands of the police department as the result of the raid pulled off by the police Friday night. The seizure was made under the search and seizure law enacted by the Legislature and the places searched were the residence of Hicks Souther, on Clayton street, and the rooms over the establishment of W. H. Bush, on South Main street. Souther, Bush and a man named Briggs were placed under arrest and required to give bond in the sum of $200 each, which was furnished. It is understood that the case may be carried to the Supreme Court if it proves necessary in order to test the legality of the search and seizure law.

The first raid was made at the home of Souther and when they reached the house they were met by Souther and his attorney and forbidden to enter the house. They went in nevertheless, and in the basement they found 51 barrels of whiskey which was seized.

The other raid was made at the alleged rooms of W. H. Bush where was found 25 barrels of whiskey and some bottled beer, and Bush and Briggs, who runs a cafe just under the rooms, were arrested and the whiskey and beer seized and taken to headquarters.

The men were in court Saturday morning but the case was continued until next Friday. In both cases the officers were refused admission but they entered notwithstanding.

There is estimated to be over 11,000 gallons of whiskey valued at about $3,000. The people of Asheville will watch the outcome of the case with a great deal of interest in order to see just how egective the new law will prove.

WHAT ARE YOU DOING

For the Old People?

It may be your father, your mother, your grandfather or your grandmother, who is very dear to you, but it is sad to see them lose their interest in life because their strength is fast ebbing away and they seem doomed to the weak, feeble and decrepit condition of the aged.

Now is the time for you to come to their assistance.

Call at our store and get a bottle of Vinol, our delicious cod liver and iron tonic, without oil, and see what a change it will make in your dear ones.

A case is recorded in Litchfield, Ill., of a man 72 years of age who seemed to be getting old and feeble, suffered from indigestion and a nervous trouble. His druggist asked him to try Vinol at his risk. He did and says he is better and feels younger than he has for fifteen years.

We wish every feeble aged person would try a bottle of Vinol with the understanding that their money will be returned if it does not give perfect satisfaction. Robt. R. Bellamy, Druggist, Wilmington, N. C.

RURAL LETTER CARRIERS.

To Meet At Rocky Mount—A. C. L. Buildngs.

(Special Star Correspondence.)

Rocky Mount, N. C., May 3.—There has been issued by president of the Rural Letter Carriers' Association, including the counties of Nash, Edgecombe and Wilson, a call for a meeting in ths city May 30th, at which the several items of business for the consideration and the betermeht of the association and its work will be brought up.

Work is under way on the new Atlantic Coast Line station and while things are considerably torn up and there is more or less confusion on account of the fact that the station building is being used all of the time for the accomngdation of passengers, nevertheless there is little inconvenience worked with the traveling public. The brick work is going forward rapidly and Contractor Rose has a large force of hands at work on the building and the indications would point to the fact that within the next several months the new passenger station and office building will be the pride of the city. Work was this morning begun upon the long shed that is to extend over the tracks from a point about in front of the Cambridge hotel to well beyond the south end of the new station building. This shed will be an added convenience to the accommodations at the new station and is one that has been badly needed.

The brick work, that is a goodly majority of it, for the Young Men's Christian Association building has been completed and while some little time will be necessary yet for the completion of the work of the carpenters, plasterers, plumbers and the roof workers, still it is believed that the date of getting into the building will be shortened by several weeks, from the date first set.

FIRE ON SATURDAY.

Duck Lake Lumber Co., at Hampstead Loses Its Plant.

(Special Star Correspondence.)

Hampstead, N. C., May 15.—Saturday morning about 3 A. M., it was discovered that one of the houses owned by Duck Lake Lumber Co., was was done to prevent its spreading to was done to prevent it spreading to the mill, owing to the high winds at that time, it was soon seen that it was impossible to check the flames which spread rapidly and soon the entire plant was in flames and totally destroyed. This consisted of saw mill, planing mill, dry kilns, boiler room and three boilers, together with a lot of lumber and five dwelling houses and several logging cars.

But for the timely shifting of the wind the dressed lumber shed would have burned with the other houses, etc.

One negro had a very narrow escape as he was asleep in one of the houses and, in fact, the one where the fire started. When found he was not hurt much but so badly scared he could not get out of the house. Much valuable lumber was consumed, as the company had just made extensive improvements and added more machinery and had only been running about one month.

The plant and lumber was only partly covered by insurance and it is supposed they will rebuild at once as they have much standing timber yet to be cut. Mr. C. A. Hesser is general manager of the company.

TEXT BOOK COMMISSION.

Conference Held Yesterday at Raleigh—Adoption August 3rd.

(Special Star Telegram.)

Raleigh, N. C., May 15.—The State Text Book Commission composed of Governor Kitchin, and State officers, and the sub-commission of six educators chosen by the Governor and Superintendent of Public Instruction are called to meet here June 8th, when the sub-commission will begin the work of examining books offered for adoption for use in the public schools, or several days thereafter there will be hearings for advocates of the different books, then the sub-commission makes up its work of examining the books for, report to the full commission, this to be completed ready for final adoption August 3rd. This is the announcement just made by the Kitchin and other State officers. The name of the educators on the sub-commission will not be made public until they arrive here June 8th to begin work.

HAIL IN CUMBERLAND.

Severe Storm Reported in Salem Church Neighborhood Saturday.

Fayetteville, N. C., May 5. — The Observer learns that a very severe hail storm visited the Salem church neighborhood, on the east side of the Cape Fear, Satudiay afternoon. In one place of about two miles square the storm was particularly severe, destroying all cotton and other young crops.

The annual session of the Scottish Society of America will convene at Red Springs on Wednesday, May 17. The annual address will be delivered by Dr. A. A. McGeachy, pastor of the First Presbyterian church, of Charlotte. The society now has 400 members, and there are acquisitions every day.

MURDER IN BLADEN.

Mr. Arthur Davis Killed by a Negro Boy, 14 Years Old.

(Fayetteville Observer.)

An awful tragedy occurred in Willis' Creek township, Bladen county, Saturday morning, May 13, when Mr. Arthur Davis, a young man 22 years of age, was shot and killed by a negro boy aged 14.

From what can be gathered of the dreadful affair, the negro boy (name unknown) had been working on the farm of Mr. Ed Davis, father of the murdered man. He did not appear for work Saturday morning and Mr. Arthur Davis went to the home of the boy's brother-in-law to learn what was the trouble. He found the boy at his brother-in-law's and in the course of conversation Mr. Davis jocularly remarked that he supposed he would have to whip the boy for failing to go to work. Without a word, the boy went into the house, returned with a shotgun, and shot Mr. Davis. The young murderer was seized and taken to Elizabethtown and placed in jail.

Mr. Davis was a young man of fine character, and the dreadful affair has cast a gloom over the Willis Creek section. The funeral was conducted from Marvin Presbyterian church Sunday afternoon.

"Annie Laurie."

By request Mr. Baldwin will sing the famous ballad tonight—Grand Theatre. **

ELECTION NOTICE:

The Board of Commissioners of New Hanover County in accordance with the provisions of an Act of the General Assembly of North Carolina passed at its 1911 Session, entitled "An Act to empower the Board of Commissioners of New Hanover county to issue bonds for road improvement and to construct bridges," and by virtue of the power therein given, do hereby call and give notice of an election to be held by the qualified voters of New Hanover county, on Wednesday, the 31st day of May, 1911, between the hours of sunrise and sunset, to determine whether New Hanover county, North Carolina, shall issue $50,000 of its bonds, with interest coupons attached, to continue and complete the repairing, construction and improving the public roads and bridges in said county.

At this election the ballots tendered and cast by the qualified electors shall have written or printed upon them "For continuing and completing the construction and improvement of the public roads and bridges of the County," or "Against the continuing and completing the construction and improvement of the public roads and bridges of the County".

All qualified electors who favor the issue of said bonds shall vote "For continuing and completing the construction and improvement of the public roads and bridges of the County," and all qualified electors who are opposed to the issue of said bonds shall vote "Against the continuing and completing the construction and improvement of the public roads and bridges of the county."

For the purpose of this election as authorized by the said Act, the said Board of Commissioners have ordered, and do hereby order, a new registration for said election, and the following are designated as the polling places in the several townships, precincts and wards, and the persons hereinafter named have been appointed as the Registrars and Judges of election in the said several townships, precincts and wards.

Cape Fear Township—Polling places, Blossom's Store, Castle Hayne; registrar, W. B. Hand; judges, W. H. Shearin and J. H. Johnson.

Harnett, First Division—Sneeden's Store, Delgado; Geo. H. Ward, registrar; W. A. Woods and E. C. Holt, judges.

S.S.S. REMOVES BLOOD HUMORS

The intimate relation of the skin to the blood is shown by the fact that impurities or poisons of any character are usually manifested in some form on the outer cuticle. Humors in the blood produce what we term in general, Skin Diseases. These are divided into several classes known as Eczema, Acne, Tetter, Salt Rheum, Psoriasis, Pimples, Rashes, etc., and each of these troubles indicate the presence of humors or acids in the circulation. The humors and acids by their irritating nature, cause the delicate flesh just beneath the outer skin to ulcerate and discharge, and soon the body is disfigured with eruptions which often are torturing to the sufferer because of soreness or intense itching. Salves, washes, lotions, etc., can have no curative effect on skin diseases. Such treatment can perhaps soothe the irritated flesh, but the real cure must be accomplished by purifying the blood. S. S. S. cures Skin Diseases of every kind by purifying the blood and removing the humors from the circulation. It neutralizes all impure acids, cools the over-heated blood, and builds it up to normal strength. Then the skin instead of being irritated by acrid impurities and humors, is nourished, soothed and softened by pure, rich blood. Book on Skin Diseases and medical advice free. S. S. S. is for sale at drug stores. *THE SWIFT SPECIFIC CO., ATLANTA, GA.*

DAVID'S

Copyr. '11 Hart Schaffner & Marx

MEN of all kinds, of all sizes, of all ages, come to us for clothes, and get just what they want. Men who can afford to pay any price they please; men who have to study economy; bankers, merchants, clerks, workingmen; they all find here the kind of clothes that are best worth buying.

Hart, Schaffner & Marx

clothes are made for men who want real value; there's economy in them; the kind of economy that means saving in what you get, more than in what you pay; the economy of service, style, good fit, of being well dressed; the real economy. These clothes cost just enough to be good; you'll be surprised at how little they cost, compared with how good they are.

Let us show you the new suits; some very smart styles; some beautiful new weaves and colorings.

Suits, $18 and up.

Suits made to order, $18.00 and up; workmanship and fit guaranteed.

The Best Shirts in the World (Manhattan and Eclipse) $1.00 to $3.50. Neckwear, Underwear, Etc., equally high-class.

THE MORNING STAR

Published by the WILMINGTON STAR COMPANY, INC., Wilmington, N. C.

Entered as second-class matter at the postoffice at Wilmington, N. C., under Act of Congress, March 2nd, 1874.

FULL ASSOCIATED PRESS REPORT.

PUBLISHERS' ANNOUNCEMENT.

THE MORNING STAR, the oldest daily newspaper in North Carolina, is published daily except Monday, at $6 per year, $3 for six months, $1.50 for three months, 50 cents for one month, served by carriers in the city, or by mail.

THE SUNDAY STAR, by mail, one year, $1; six months, 50 cents; three months, 25 cents.

ADVERTISING RATES may be had on application, and advertisers may feel assured that through the columns of this paper they may reach all Wilmington, Eastern Carolina and contiguous territory in South Carolina.

Obituary sketches, cards of thanks, communications espousing the cause of a private enterprise or a political candidate, and like matter, will be charged at the rate of 10 cents per line, or if paid cash in advance, a half rate will be allowed. Announcements of fairs, festivals, balls, hops, picnics, society meetings, political meetings, etc., will be charged under same conditions, except so much thereof as may be of news value to readers of the paper.

Advertisements discontinued before expiration of contracts are charged transient rates for time actually published. Payment for transient advertisements must be cash in advance. Contract advertisers will not be allowed to exceed their space at same rates or advertise anything foreign to their regular business without extra charge. Advertisements to occupy special place will be charged for according to position desired.

TELEPHONES: Business Office, No. 51; Editorial and Local rooms, No. 61. Call either, if the other doesn't answer.

COMMUNICATIONS, unless they contain important news, or discuss briefly and properly subjects of real interest, are not wanted; and if acceptable in every other way, they will invariably be rejected unless the real name of the author accompanies the same, not necessarily for publication, but as a guarantee of good faith.

Tuesday, May 16, 1911.

You can get it in Wilmington—if it is something you can take home for the family.

It isn't good policy to license a wrong even if the wrong cannot be prevented.

A Paris doctor says "gout is caused by thinking." We hardly think that is the case.

The man who recently kicked about the cold weather probably will be too lazy to get up a kick about the hot weather.

People always get happier and better looking the longer they stay in Wilmington. Wilmington is nature's beauty shop.

A Chicago woman asks: "Do ministers make the best husbands?" Hardly. Most of those we've seen were made by good wives.

Keep on building Wilmington inside and outside. Wilmington is expanding right along. Ride around and look how Wilmington is growing.

According to a Nebraska paper "Salt Creek is to be drained." This will be good news for Republicans, since it will make it easier next year to go "up Salt Creek" without a paddle."

The "Black Hand" has never bothered us down South, but did you ever know what it is to let some fellow get the upper hand of you? The Upper Hand is also something bad, if you don't look out.

If it is made in Wilmington buy it and boast about it. Tell your neighbor to buy it, and make an endless chain of that kind of buying. It will leave many a dollar in Wilmington to build Wilmington.

It has leaked out on Editor Josephus Daniels, of the Raleigh News and Observer, that he has bought an automobile. With the editors and the farmers getting the habit, there is no better sign that prosperity has become chronic in North Carolina.

An argument is going on as to whether March 4th or April 30th is the better date to inaugurate the President. March has its drawbacks, but if Wilson is to be President it must be remembered that his inauguration should take place at the earliest date possible.

Raleigh is going to be the great Convention City of North Carolina and all this section. The prospects are that its big and handsome auditorium and municipal building will be dedicated on July fourth. Then with its adequate hotel facilities it can have the biggest of the conventions here.—Raleigh News and Observer.

Wilmington has long had its Brooklyn and now it has its Bronx. Our enterprising friend, D. R. Foster, who is one of Wilmington's young constructive men, is promoting "The Bronx" suburb, and as a matter of course it will come right on to the front. That is the way with all of Wilmington's suburban developments, and of all the signs that Wilmington is growing these home building enterprises are the best. Wilmington is spreading out and it is a healthy spread at that.

Some men make history but some men make some history look bigger than it is. It is owing to where the historian resides. A historian is a scholar who writes about what he thinks are the facts in the case, and he is the judge of the alleged facts. Deductions are not history and collateral discussions accompanying historic matter are only to be taken for what they are worth—much, little or nothing. Students of history always have to discriminate for themselves.

EXPANSION OF AMERICAN FERTILIZER INDUSTRY.

Wilmington has shared largely in the wonderful expansion of the American fertilizer industry, and with the new factories recently built or in course of erection, the city on the Cape Fear already takes rank as one of the largest fertilizer manufacturing cities in this country.

We are reminded of this fact because the production of commercial fertilizers in the United States the past season has been the largest in the history of the country. In its issue of May 15th, the Oil, Paint and Drug Reporter of New York, in an editorial discusses this interesting question—especially interesting to the South because the consumption of commercial fertilizers is greater in the South than in any other agricultural region of the country. The publication just mentioned says:

"The very large increase in the importations and deliveries of nitrate of soda and other nitrageous chemical manures into Atlantic coast ports during the last five years calls attention to the remarkable expansion of the American fertilizer industry during that period."

Wilmington has the past season been a large importer of potash salts from Germany, nitrate from Chili, and other such fertilizer materials for the fertilizer factories here and in the interior States. The German Kali Works, better known as the German Potash Syndicate, one of the largest of all the world's capitalized organizations, made Wilmington one of its distributing points early in the season, and though it has been doing business but several months, that business has been on a large scale. Then Wilmington is the distributing point for Messrs. William R. Grace & Son, of New York, who have done so much for the import development at Wilmington on account of their large imports of nitrate of soda from the Chilian mines. This accounts for the tremendous fertilizer production and shipments this season by all the railroads running out of Wilmington. Nitrate of soda being by far the most important of the nitrogen carrying chemicals used in the manufacture of artificial manures, the increased consumption of that product can be regarded as a reliable criterion of the growth of the fertilizer industry as a whole. The Reporter, in noting this tremendous increase, says:

"Nitrate of soda, being by far the most important of the nitrogen-carrying chemicals used in the manufacture of artificial manures, the increased consumption of that product can be regarded as a reliable criterion of the expansion of the fertilizer industry as a whole. Privately compiled statistics record total deliveries at Atlantic coast ports during the first four months of 1911 to the amount of 194,522 tons. This figure compares with 81,384 tons and 70,030 tons during the corresponding periods of 1907 and 1908, respectively. Thus in the period between 1907 and 1911 there has been an increase of more than 125 per cent. in the actual deliveries for consumption of the soda salt. The ratio of increase in the importations has been much larger, being close to the 300 per cent. mark. As but 15 to 25 per cent. of the imports of chemical is used in the manufacture of nitric acid, glass and explosives and as these industries have not shown more than a normal rate of expansion during the last five years, the increased importation of nitrate of soda can be credited to the fertilizer trade."

The imports of all salts of potash have increased more than 66 2-3 per cent. during the past two years, and here again the fertilizer industry has been the source chiefly responsible for the heavier tonnage. Of course, Germany maintains her monopoly of this important plant food, as the Austrian deposits have not been exploited to any great extent. In fact, Austria continues to depend on Germany for potash, though she has it right at home. Austria, in that respect, is like some Southern States which have splendid resources of their own, but depend upon some other portion of the country for what is right at our own doors.

Wilmington can be made one of the very greatest fertilizer producing centers in all the United States. As a port, she is logically situated where she can import the raw materials and distribute the finished product to advantage. If there is any one industry for which there is a great and assured future it is that of manufactured fertilizers. The Reporter in noting that the Southern States are by far the largest consumers of commercial fertilizers, predicts that it must also be generally resorted to in the restoration of the soil of the Western States. With the repeated crops of land-exhausting products in the West, it is predicted that the time is near at hand when the West must also be in the market for our fertilizer products.

This ought to be a pretty good pointer to one of the lines of manufacture showing "what Wilmington is good for."

REAL ESTATE—REAL GROWTH.

Our former esteemed Wilmingtonian, Major William F. Robertson, recently acquired by Charlotte, has started something by a communication which he recently sent to the Baltimore Manufacturers' Record. Having in mind the inflation of real estate to prices almost beyond the bounds of reason, he gives a warning of the danger of "community paralysis," and inquires:

"How far can the bulling of real estate in our Southern cities go before it becomes an obstacle to growth?" It is his conviction that when real estate values become abnormally high, manufacturing prospects become slim, for promoters of industries are scared off by high prices for locations for plants.

According to Major Robertson's view of it, when real estate gets to fever heat, "the manufacturer comes and finds that a site will cost him out of all reason; homes for himself and those associated with him are almost prohibited, and land is held in idleness awaiting the consummation of selfish dreams," with the result that "the way of progress is blocked."

Of course, the major has no reference to the normal and legitimate increase of real estate values, necessarily based upon the growth of a city or as a consequence of desirable location, but rather to the springing of extravagant prices where there is believed to be a good opportunity to sell. In other words, when attempts are made to "squeeze" promoters of industries they are driven away. That is quite true, for we have witnessed some unfortunate incidents like that close to home. We have seen industries go elsewhere, when they could have been secured for Wilmington, but while no real estate holder is expected to make a personal sacrifice for the benefit of a whole community, there is a great deal in the hint that a real estate boom is not calculated to start an industrial boom. The Manufacturers' Record thought so well of Major Robertson's point that the editor says:

"Throughout the South there is a growing tendency among business people and men of means generally to concentrate all their energies and surplus capital into real estate operations to the neglect of the development of industrial enterprises upon which the growth of a section or a city, and the intrinsic value of its real estate, must depend. There is very great danger, looking to the best interests of the South in the long run, that this concentration of capital and energy upon real estate, both in farm lands and town lots, will lessen the energy with which the South ought to give itself to industrial development and absorb a very large amount of capital which ought to be invested in creative enterprises rather than in mere trading. In nearly all of the growing cities of the South the cost of residences is entirely too high for men of moderate salaries. In most of these Southern cities there has been no organized effort at house-building on a large scale as in Baltimore and cities to the North, where house-building as an investment is one of the most active interests, thus providing houses of moderate cost for all classes of people, the day laborer, the mechanic and the clerk, as well as for men of larger means. The scarcity of moderate-cost dwellings with all modern improvements, such as can be had in the North either for rent or purchase, is a serious drawback in many of the most prosperous cities in the South. Their advancement will be halted to some extent unless it is made possible for men of moderate incomes, whether mechanics or clerks, to live in comfort and yet secure inexpensive homes. In this direction there is a great field for creative work on the part of men interested in the upbuilding of their communities, to the good of all classes, as well as to a fair profit to the investor."

VALUE OF TOADS.

The snake is the enemy of the toad and makes its meals upon the unoffending frogs whenever it can catch one. The snake is also the enemy of man and so far as any discovery has been made the poisonous reptile is not only dangerous but is no earthly use to man. However, the toad is one of man's best friends, so the scientists, horticulturists and agriculturalist experts tell us.

The time has been when the people trampled upon or kicked out of their way the common and ugly toad that hopped along in the paths and garden walks, little considering that the toad is one of man's best friends and an exceedingly valuable asset on the premises. The generations which have preceded us had no proper conception of the value of birds and even in this generation in North Carolina it requires a constant campaign of education to prevent the extermination of the winged friends of mankind. Even large amounts of money are being expended to preserve the birds from extinction and that work is being more or less systematically carried on in North Carolina. It now appears that not only are men so impressed with the value of toads, that the raising of toads for commercial purposes is an industry in Europe and is being introduced into the United States where the toad should be plentiful but for some reason is becoming exceedingly scarce.

To be sure, the commercial use to which the toad is being put is not one which contemplates its use upon the table. It is not to be used for "frog soup", but the commercial use of a toad is because of its value to the agriculturists and horticulturists. We have been ignorant of the importance and value of the toad, but it is now known that it is the devourer of harmful insects, in the destruction of which the armies of toads are worth millions of dollars to any people among whom it has its humble existence. The people in the old country have a greater appreciation of the toad than we do and over there they are systematically raised for their value to gardeners and farmers.

It is true that the Department of Agriculture of North Carolina and the Agricultural Department of the United States have endeavored to impress upon our people the importance of preserving the enemies of insects and worms, but so far as the toad is concerned we have not been told that it would pay to have a toad farm. It remains for an Englishman, Mr. Richard Dray, an expert gardener, to come over to the United States for the purpose of engaging in the raising of toads. He will establish a toad ranch in a Western State and expects to raise toads by the millions for the purpose of selling them to gardeners and farmers. It is a novel industry, but Mr. Dray has a practical knowledge of the toad raising business and expects to make a succes of it. He has devoted years of patient study to the toad in a great many countries on the globe and it is hoped that his experiment here will be worth a great deal to himself as well as the country at large. We have long since recognized the toad as one of man's assets and it is hoped he has no enemies among North Carolinians. Look out for and befriend the toad at this season of the year.

CURRENT COMMENT.

Shippers of strawberries down about Wilmington got fearfully mad the other day. Berries had been selling high, when all at once the price dropped one-half without the least notice. The shippers thought a trust had been formed to beat down the price, but when the facts were known it appeared that everybody and his uncle too were shipping berries on the same day and the market was glutted.—Greensboro Record.

The Seaboard Air Line railway anticipates an era of great prosperity soon to dawn. The Manufacturers' Record, speaking of the Seaboard, says that counting of the 200,000,000 contracts let last week for new rolling stock, and the projected double-tracking of the 154-mile line stretch between Hamlet and Norlina, with the enlargement of terminal facilities at Savannah, Tampa, Jacksonville and other points along the line, the new rails recently ordered and the $400,000 appropriated for new bridges, there is in sight an expenditure for the betterment of the Seaboard system of between $5,000,000 and $10,000,000. Prospects for business of every kind in the southern country are brilliant. The longheaded men at the head of the southern railway systems are preparing for the rush that is coming.—Petersburg Index-Appeal.

North Carolina has always been proud of her citizenship and she loves to call too among the names of her sons those who, born on the good old soil, have fared forth and made both her name and their names famous by their achievements. Perhaps in all the broad acres, that make up State infused with patriotic pride than Charlotte, so that it is with special appreciation that Dr. Guy Carleton Lee is welcomed into her midst to lecture on a distinctly patriotic subject: "The True Jefferson Davis." Dr. Lee was born in Wilmington of a Carolina mother and has since become famous the world over as a lecturer, historian, critic and teacher. President Davis has still living many personal friends in Charlotte. It was on the site of the Observer-Chronicle building that the last full cabinet meeting of the Confederacy's great President was held.—Charlotte Chronicle.

SAVE YOUR HAIR;
SAGE TEA WILL DO IT

Dandruff, Itching Scalp and Falling Hair Quickly Stopped.

There is one place where baldheaded men shine, and that is in the front row seats of the theatre. If these baldheaded people had used Wyeth's Sage and Sulphur Hair Remedy in their earlier days they would not be so conspicuous now. This preparation does not plant new hair, but it does strengthen weak, dying hair, and not only brightens dull, parched hair, but gradually restores the color to faded or gray hair. It is a clean, wholesome hair dressing, which can be used daily with perfect safety.

Wyeth's Sage and Sulphur is sold under guarantee that the money will be refunded if it fails to do exactly as represented.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special Agent: J. Hicks Bunting Drug Co., corner Front and Grace streets.

A SKELETON ONCE ON A TIME

Now Mrs. I. A. Decker, of Clyde, Ky., Says She is Well and Happy Through Taking Cardui.

Clyde, Ky.—"I can safely recommend Cardui, the woman's tonic, to any lady who is in need of medicine," writes Mrs. I. A. Decker, of this place. "It has been very beneficial to me and I can say that there is nothing like it for weak women.

"For five years I was not able to do my work. Half of my time I spent in bed. I suffered with female weakness and took such nervous spells I could not stand on my feet. I suffered with my back and side, and fell off till I became a skeleton.

"At last I took Cardui and now I am well and happy and can do my own work."

Cardui is prepared from the natural plant, not from mineral, synthetic compounds, and contains no coal tar products or other results of laboratory experiments.

The Cardui ingredients are imported at great expense directly from abroad and have been used for nearly half a century in the manufacture of this famous tonic medicine for women.

Safe, reliable, prompt, yet gentle in action, by preventing unnecessary pain and building up strength, Cardui has shown itself a necessary remedy for weak women. Try it.

N. B.—Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for special instructions, and 64-page book "Home Treatment for Women," sent in plain wrapper, on request.

CONSIDERING FREE FERRY

Mayor and Chairman of Board of County Commissioners Held Conference—Will Get Busy Right Away.

Citizens generally of New Hanover and Brunswick counties will learn with much interest that Mayor Joseph D. Smith and Chairman Duncan McEachern of the Board of County Commissioners, held a conference in the Mayor's office yesterday at noon for the purpose of informally discussing the matter of establishing a free ferry across the Cape Fear river at Wilmington, as provided for by an act of the recent Legislature.

Mayor Smith and Chairman McEachern will get a copy of the law and after familiarizing themselves with all the provisions of the measure and securing the advice of counrel as to any point raised, will begin at once arrangements to establish the free ferry. The bill provides that 35 per cent. of the cost of the ferry be borne by the City of Wilmington, 35 per cent. by the County of New Hanover and 30 per cent. by the County of Brunswick. Some of those who have read the bill have given it as their opinion that it is defective in that it does not provide for the raising of revenue for the purchase and maintenance of the free ferry and that in the absence of any provision for this that Brunswick county will be unable to pay its proportion of the costs. However, others take the contrary view that the free ferry is a necessary expense and it is stated that the Commissioners of Brunswick are ready to proceed with the establishment of the much needed public utility whenever New Hanover county and Wilmington are ready.

The City Council and the County Board of Health will hold a joint meeting in the office of the Mayor at the City Hall tomorrow afternoon at 2 o'clock for the purpose of conferring relative to matters of health and sanitation. It is understood that the question of consolidating the county and city health offices will be discussed.

The regular weekly meeting of the City Council will be held this afternoon at 4 o'clock at which probably a large number of matters will be considered, for the Councilmen have much to claim their attention and occupy their time.

Report made at he City Hall yesterday that the pump at Fifth and Castle streets was out of commission, caused inquiry to be made as to which department has charge of the deep wells. It was decided that the deep wells come in the Water and Sewerage Department, at the head of which is Councilman W. E. Perdew, and the condition of the Fifth and Castle streets pump was reported to Supt. R. C. Cantwell, who stated that the proper repairs would be made. The placing the deep wells in charge of the department of Water and Sewerage very probably means that no more deep wells will be sunk in Wilmington. This department has charge of the municipal water works plant and it is not likely that they would continue to sink deep wells for the free use of the public, when if they did not sink the wells there would be greater sale of municipal water. However, there is no danger of the department plugging up the pumps in the wells which have already been sunk and which are so extensively patronized by the people.

Mayor Smith stated yesterday that he wanted to see a rigid enforcement of many of the ordinances of the city, especially those enacted for the benefit of the health of the community. He desires the hearty co-operation of the general public in the matter of placing garbage in the proper receptacles on the edge of the street, where it will be gotten by the city carts, and a discontinuance of the practice of throwing papers, banana peels, etc., on the side walks, and in the gutters and the piling of trash loose on the edge of the sidewalks for the trash man, instances of which were cited. He also asks that he public carefully observe the ordinance against spitting on the sidewalk. This practice is becomming more general in Wilmington and it is hoped that there will be a more rigid enforcement of the ordinance, which provides a fine of $5 and costs for each and every offense.

There were no developments yesterday in the Sixth street muddle. Councilman P. Q. Moore, who has charge of the tangle, hopes to have it straightened out in a few days and be in position to resume work on the structure. The city may institute claim and delivery proceedings today against Sheriff Cowan to regain possession of the bridge materials. It was stated yesterday that the Council will look to the company in which the Southern Construction Company gave bond to reimburse the city for any losses it may sustain by reason of the failure of the bridge company to carry out its contract.

Improvement of Streets.

Councilman P. Q. Moore, who is at the head of the Street, Wharves and Public Improvements Department, is already busy with plans for improvement of the streets and within a short time permanent street work will no doubt be begun. In the meantime there will be extensive repairs of the macadam streets in all parts of the city. Councilman Moore has placed an order for eight car loads of materials and as soon as it arrives the repair work will begin. This announcement will be hailed with delight by those who use the streets of the city either with vehicle or automobile. An order has also been placed for eight car loads of curbing, which will arrive about the same time as the materials for the repair work. The public may feel assured that the street improvements so long delayed and so badly needed will be commenced within a short time now and will proceed as rapidly as possible.

The selection of a city engineer may be one of the matters considered at the session this afternoon. However, there may be no election of a permanent city engineer until a little later, when the Council is ready to begin in earnest the work of improving the streets.

CASE AGAINST MR. W. E. WORTH

Suit of Knickerbocker Trust Co., Being Tried in Federal Court—Approximately $30,000 Involved.

The case of the Knickerbocker Trust Company, incorporated, of New York City, against Mr. Wm. E. Worth, of this city, involving approximately $30,000 alleged to be balance due on contract, the action resulting from the failure of the Rockingham Power Co., some years ago, is now being tried in United States Circuit Court here and judging from the progress made yesterday it will consume a greater portion of the week.

Th plaintiff contends that Mr. Worth is indebted to it to the amount of $29,414.98 with interest from May 11th, 1909, on account of the defendant's failure to fulfill a contract to buy $46,000 worth of stock in the Rockingham Power Co., financed by the Knickerbocker Trust Co. The plaintiff alleges that Mr. Worth became a stockholder in the company with Hugh MacRae & Co., and others, and that after paying in $9,000 of the amount of stock contracted for refused to pay any more. The suit is to recover the amount of the balance alleged to be due. On the other hand, Mr. Worth, who has a suit in the State Court against the Knickerbocker Trust Co., Hugh MacRae & Co., the Electric Bond & Share Co., claims that the plaintiff schemed against him and entered into certain contracts without his knowledge. His counter claim is for forty odd thousand dollars and action is in the State court.

It required more than an hour yesterday morning to read the pleadings, which are very voluminous, concluding at 12:40 when recess was taken until 2:30 o'clock in the afternoon. The only witness examined yesterday afternoon was Mr. J. E. Miller, who was assistant to one of the officers of the Knickerbocker Trust Co., at the time Mr. Worth subscribed for the stock and paid the $9,000. He was on direct examination until 5 o'clock, when he was turned over to the attorneys for the defendant, counsel for the plaintiff reserving the right to recall the witness after the examination of two other witnesses for the plaintiff. The cross-examination had not been concluded when court adjourned at 6 o'clock for the day.

The plaintiff company is represented by Thos. W. Davis, Esq., of Wilmington, and J. T. Ravies, of New York City, while appearing for the defendant are ex-Judge E. K. Bryan and Hon. John D. Bellamy.

REAL ESTATE TRANSFERS.

Several Deeds Filed for Record at Court House Yesterday.

The deed transferring from the Wilmington Compress & Warehouse Company to the Atlantic Coast Line Railroad Company valuable property on the wharf, mention of which deal was made in The Star some days ago, was filed for record at the Court House yesterday. The consideration named in the deed is $75,000. The property is on the northwest corner of Front and Cowan streets and on the lot is located two warehouses known as the Kainit warehouses. There is 1.54 acres of land in the tract. Practically all of the wharf property from Red Cross street to the Hilton tract is now held either by the Coast Line or the Seaboard Air Line, besides the railroads own some valuable wharf property south of Red Cross streets.

Other deeds filed for record yesterday were: Wm. E. Worth and wife to B. A. Merritt, for $2,250, lot on northeast corner Second and Red Cross streets, 30x105 fet in size; J. E. Ellers and Emma C. Ellers to James H. Gurganus, for $100 and other considerations, lot on east side of Third, 198 feet south of Harnett street, 33x113 feet in size; Joseph T. Foy and wife, of Scott's Hill, to Thos. H. Wright, for $1 and other considerations, lot on south side of Wooster, 107 feet east of Front street, 28x51 feet in size; Martha J. Toomer to Nettie and Estelle Green; her nieves, for natural love and affection and $10, lot on northwest corner of block 188, same being in the vicinity of 11th and Chesnut streets, and 33x132 feet in size.

Funeral of Mr. Donlan.

The remains of the late Mr. Frank P. Donlan, whose sad death occurred last week in Denver, Colo., whither he had gone for his health, will arrive today, via Seaboard Air Line, and will be taken to the residence of his father, Mr. Timothy Donlan, corner Third and Chesnut streets. Requiem mass for the repose of the soul of the dead will be said in his honor at St. Thomas' Catholic church tomorrow morning at 10 o'clock and the interment will be in Oakdale cemetery.

THE BRONX! THE BRONX!!

Were you one of the lucky purchasers of Bronx property yesterday? Many of your friends and neighbors were. Look over this list of among those who got in on the ground floor yesterday: J. F. Rulfs, Jr., two lots; R. C. DeRosset, E. A. Hawes, W. G. James, E. R. Clarke and a dozen others we might mention. Mr. Hawes telephoned his order from Atkinson, N. C. The special lots he wanted were sold before his order reached here, but he took two others just as good. The sale has just begun. Better make inquiry before it's too late. At any rate, look over the property and proposition—it will be money in your pocket. As we stated before, values will increase 100 per cent. the first year. Values are now higher than they were yesterday morning. There's a reason. But our prices are the same. Better call, write, telephone, telegraph or get there in person. D. R. Foster & Co. "We Sell the Earth." **

Fire! Fire! Fire!

Demonstration of the Osmun Hand Fire Extinguisher, greatest fire fighter known, on Friday, May 19th, on Market street, between Front and Water at 6:15 P. M. Business men cordially invited. 4t.

HEARINGS ON IMPROVEMENT

Capt. Earl I. Brown Will Visit Several Places in Eastern Carolina—Will Issue Proposals for Two Dredges.

Capt. Earl I. Brown, United States Engineer in charge of this district, accompanied by Mr. H. H. Ford, his private secretary, will leave today for a visit to several points in Eastern Carolina, where he will hold public hearings relative to river and harbor improvements. The hearings continue through next Monday.

The last river and harbor act provided for the examination of several streams in North Carolina with a view to their improvement, among which were Swift Creek, Craven county, with a view to dredging a channel through Horse Shoe Bend and Poplar Branch; South River, with a view to obtaining increased depth above Aurora; Pamlico river, with a view to improving the inner channel on the north side of that river; and Deep River from its mouth on Albemarle Sound to the head of navigation. Captain Brown will hold hearings at Vance tomorrow, May 17th, at 10 A. M., with reference to Swift Creek; at Aurora, May 19th, at 10 A. M., with reference to South River; at Washington, May 20th, at 11 A. M., with reference to Pamlico River, and at Columbia, May 22nd, at 10 A. M., with reference to Deep Creek. All parties interested are invited to be present and submit arguments in favor of the proposed improvements.

The engineer's office, this city, is preparing to issue proposals for the construction of two wooden hull, non-propelling, 15-inch hydraulic pipe line dredges, one for use in the Wilmington district and the other for use in the Wilmington district and the other for use in the Dallas, Tex. district The one to be used in this district will be named the Neuse and the one for the Texas works is to be called Port Arthur. Bids will be issued about June 1st and will be opened about June 20th, 1911, the proposals having just been given to the printers.

FLOWER THIEF CAPTURED.

One of Trio of Thieves in Prison Awaiting Hearing This Morning.

A negro woman giving her name as Ollie Hayes, is in the city prison awaiting hearing on the charge of stealing flowers and ferns in pots from residences last night, having been captured at Sixth and Chesnut streets about 10:30 o'clock by Mr. Clarence Mills, who was on his way home a short distance away. There were three negro women together and each had one or more flower pots. Sunday night several flower pots were stolen from the home of Mr. Mills and when he saw the pots in the hands of the negroes last night, he surmised that a raid had been made on some one else during the night and called to the women, who ran. Two of the women got away, but the Hayes woman was captured and held until the arrival of an officer from the hall. The women left the flowers in the streets. Among the number are two jars of ferns. It is hoped that any person who may miss flowers from their home this morning will telephone police headquarters. Recently a large number of flowers and ferns have been stolen from the front porches of citizens in every section of the city, some within a stone's throw of the City Hall, and it is hoped that all the guilty parties may be captured and punished.

BEACH SEASON APPROACHES.

Several Hundred Visited the Resort Sunday Afternoon.

It will not be many days now until the formal opening of the beach season, which promises to be one of the best in the history of the resort, and everything on the beach is being put in readiness for the accommodation of the visitors. Repairs are being made to the board walks on the beach. They are being widened and otherwise improved. The hotels and cottages have also undergone the usual repairs and are now practically ready for the opening. Several cottages have already opened for the season and there are a number of people on the beach.

The suburban cars did a fine business Sunday. The weather was ideal for an outing at the beach and as a result the cars were well crowded throughout the afternoon. Traffic on the line will become greater from Sunday to Sunday until the height of the season some weeks off.

OFF FOR TOURNAMENT.

Chief Schnibben and Wilmington Laddies Leave for Charlotte.

Chief Charles Schnibben and a representative from each of the four uptown companies of the Wilmington Fire Department leave on the early morning Seaboard Air Line train today for Charlotte where this week they will attend the 24th annual meeting of the State Firemen's Association and tournament which will be in progress in the Queen City through Thursday. Wilmington having a paid fire department, is not eligible to take part in the tourney, but the local department always exercises a wide influence in the conventions and this year will be no exception. The representatives from Wilmington other than Chief Schnibben are Messrs. H. W. Wright, Engine Co. No. 1; D. C Lee, Engine Co. No. 2; J. L. Croom, Hook and Ladder Headquarters; John T. Yates, Engine Co. No. 3, and superintendent of fire alarm.

Why is Sugar Sweet?

If sugar did not dissolve in the mouth you could not taste the sweet, GROVE'S TASTELESS CHILL TONIC is as strong as the strongest bitter tonic, but you do not taste the bitter because the ingredients do not dissolve in the mouth but do dissolve in the acids of the stomach. Is just as good for Grown People as for children. The First and Original Tasteless Chill Tonic The Standard for 20 years. 50.

"Annie Laurie."

By request Mr. Baldwin will sing the famous ballad tonight—Grand Theatre. **

CLOSING HOURS OF SYNOD

Ordination Service Sunday Morning and Meeting of Christian Association in Afternoon — Orphans' Home.

With most interesting and helpful sessions, morning, afternoon and evening, the North Carolina Lutheran Synod, which had been in session four days of the past week at St. Paul's church, this city, came to a close on Sunday. Many delegates and visitors left for their homes yesterday, charmed with the entertainment received here and with a most favorable impression of Lutherans in Wilmington and the people of the city generally.

The church was filled Sunday morning for the ordination services. The processional was led by a large choir of children with the officiating ministers and the one candidate for ordination, Mr. J. L. Smith. Rev. R. L. Patterson, of Charlotte, preached the ordination sermon and it was a strong and most appropriate discourse from Jer. 23:28: "The prophet that hath a dream let him tell a dream, and he that hath my word, let him speak my word faithfully."

At the close of the service the president of Synod read resolutions of thanks for the entertainment of Synod and these were unanimously passed.

At 3:30 o'clock there was a large special gathering of the Sunday school at St. Paul's with addresses by Rev. G. H. Cox, D. D., and Prof. J. L. Crabtree. At 4:30 there was a special gathering of the Y. M. C. A. in compliment to the Synod. Mr. A. D. Wessell, the president, presided over the session and interesting and helpful addresses were made by Rev. A. G. Voigt, D. D., Rev. C. P. McLoughlin and Rev. R. C. Holland, D. D., the general theme being the work of the men of the church.

At the vesper service the sermon was by Dr. Voigt, former pastor of the church, who was heard with great interest and pleasure. Following the sermon Supt. J. T. Crabtree preesnted the work of the Orphans' Home at Salem, Va. One hundred children are under its care and they are all fond of Wilmington and Winchester, which are generous in their donations.

It has been a great pleasure for Wilmington to enteratin Synod and all are looking forward with pleasure to the net sessions, which will be held in Charlotte.

THE RECORDER'S COURT.

Several Cases Were Tried at Yesterday Morning's Sitting.

There were several cases for the consideration of the Recorder yesterday morning, but none of any special interest or importance. Walter Thomas, colored, arrested Saturday night for stealing a grape fruit from a delivery wagon, was found guilty of larceny and sentenced to three months on the county roads. George McGhee, colored, charged with disorderly conduct, was assessed $5 and costs.

Indicted under the new law relative to order on public highways in the county, John Beaman, Chas. Grady and Arnett Shell, all colored, were given hearing on the charge of disorderly conduct on a public highway in the county within one mile of the city limits of Wilmington Sunday afternoon. They were found guilty, Grady and Shell beging given 30 days on the county roads and John Beaman fined $10 and costs.

David Hines, colored, was in court to answer the charge of violating the prohibition law, it being alleged that on Saturday night he sold two half pints of whiskey to Henry Slater, colored, who made the affidavit upon which the warrant was issued. The trial was postponed until today. Slater claims that he bought two half pints of whiskey from Hines for which he was to pay 50 cents; that he gave Hines $1 and that he did not receive any change in return. Because he did not get his change back Slater reported the matter to the police and swore out the warrant.

The case against Richard Phillips and Leslie Hamilton, white boys, charged with assault with deadly weapon upon Robt. Thompson, colored, some weeks ago, was called, but continued until Wednesday. Thompson was shot in the abdomen with a 22-calibre rifle by one of the boys and dangerously wounded, it being at first feared that he would not recover.

The case of Mrs. L. F. Rivenbark against E. C. Glavin, a civil action in which the plaintiff seeks to recover $200 alleged damages for assault, was continued until today. The other civil action on the docket, that of Architect B. H. Stephens against Mrs. Sallie H. Hicks and her husband, Mr. R. W. Hicks, has also been continued and will not be heard for some days yet.

OBSERVANCE OF THE 20TH.

W. L. I. Arranging for Its Annual Celebration at the Beach.

Through a committee of which Mr. Ed Hines is chairman, the Wilmington Light Infantry is making arrangements for the annual 20th of May celebration at Wrightsville Beach. Owing to the fact that there is no formal celebration of the day, the anniversary of the signing of the Mecklenburg Declaration of Independence, the crowd to visit the beach is usually very large. Members of the W. L. I. will go down in the morning and will spend the day on the beach. During the day the annual shoot for the company medal will take place as well as other attractive events and at night there will very likely be a dance, as usual. The programme will be announced within a few days and the members of the company are looking forward with much interest to the outing.

FUNERAL NOTICE.

The remains of the late Frank P. Donlan will arrive today at noon, via Seaboard Air Line, and will be taken to his father's residence, corner Third and Chesnut streets. The funeral services will be held tomorrow (Wednesday) morning, at ten o'clock, at St. Thomas' Catholic church, with requiem mass. Friends are invited to attend.

FOR MANUFACTURES FIRST.

New President of Chamber of Commerce Begins an Outline of Work.

President M. J. Corbett, the new executive head of the Chamber of Commerce and also the newly elected executive committee of the organization, held their first meeting or conference yesterday at noon. Matters in general pertaining to the future work of the Chamber were discussed, following the organization of the committee for the year. President Corbett is a strong advocate of manumfactures and industries of all descriptions for the development of Wilmington and this will be the first consideration of the new administration.

The recent campaign during which a large number of members were secured was discussed with much satisfaction, the committee believing the organization to be a stronger factor for the general up-building of the city. At the meeting yesterday were the following members of the executive committee: Messrs. Louis Hall, vice president; R. A. Parsley, J. H. Rehder, J. W. Brooks, L. Stein, C. W. Polvogt.

At he meeting of the Executive Committee yesterday the applications of 34 of the 114 members recently secured were passed upon and admitted to membership as follows:

Class B—Chadbourn Lumber Co., Atlantic Trust & Banking Co., Dick & Williams.

Class C—Theo. G. Empie, George Harriss, John J. Furlong, M. C. Hammond, P. P. Causey, T. C. White, Louis Goodman, J. H. LeGwin, Dr. M. M. Caldwell, F. A. Bissinger, C. McD. Davis, David Ray, Donald MacRae, Geo. B. Elliott, H. C. Prince, Dr. E. J. Wood, H. A. Kure, K. C. Sidbury, C. VanLeuven, P. R. Albright, Lyman Delano, Dr. W. C. Galloway, J. O. Brock, William Goodman, Jarman & Mintz, S. W. Sanders, W. E. King, W. G. Pulliam, Geo. S. LeGrand, R. E. Smith, D. M. Davis.

RIVER TUG WAS SAVED.

Emily B. Pulled Off Rich Inlet Shoal. Awaits Blanche.

The small tug Emily B., which went ashore in Rich Inlet while being brought around from Norfolk to the Cape Fear river, was pulled off Sunday morning, after a force of hands with wrecking machinery had been working on her for three days. The tug went ashore on the beach and but for the favorable weather it is probable she would have been lost. The tug is owned by the East River Lumber Company and is now anchored in New Inlet to await a tug from Wilmington to tow her around. The Blanche, Capt. Sanders, left Wilmington yesterday morning for New Inlet, but on account of the heavy northeast blow reported off the coast, it is probable that she remained at Southport last night, as the sea at present is too rough to attempt to bring the small craft around.

Death of Little Daughter.

Friends will sympathize with Mr. and Mrs. D. E. Ennis in the death of their seven-months-old daughter, May, which occurred at the family residence, No. 17 South Second street, at 9 o'clock yesterday morning. The funeral will be held from the home at 10 o'clock this morning, conducted by Rev. Dr. J. H. Foster, and the interment will be in Bellevue cemetery.

Married Sunday Afternoon.

Mr. Fred Pepper and Miss Mamie Farrior, of Masonboro township, were united in marriage Sunday afternoon at 4:30 o'clock, at the home of Mr. Joseph Farrior, the ceremony being performed by Rev. J. W. Craig. There were present a number of relatives and friends of the couple. Both have many friends in the county who will extend felicitations and best wishes.

SPEAKERS AND SINGERS
Use Brown's Bronchial Troches for the voice.

Found Some Old Records.

In cleaning out the vault at the City Hall yesterday, Col. C. H. White, city tax collector, discovered several most interesting old books, which he and Capt. Thos. D. Meares, City Clerk and Treasurer, decided should most certainly continue to occupy a place in the vault where they will be preserved for many years longer. One of the books was used by the City Clerk and Treasurer from 1806 to 1836 and still there are quite a number of blank pages. Another was the tax book of the year 1860 and contains the name of every taxpayer in Wilmington that time. The books could easily be carried in the pocket.

Death of Infant Daughter.

Mildred Catherine Carney, the 18-months-old daughter of Mr. and Mrs. R. N. Carney, died at the family residence, No. 708 North Third street, at 10 o'clock last night. The funeral will be held from the residence at 2:30 o'clock this afternoon, conducted by Rev. W. L. Rexford, pastor of Bladen Street Methodist Church, and the interment will be in the graveyard at Prospect church, on Middle Sound. Mr. and Mrs. Carney have the sympathy of a great many friends in their bereavement.

Do Ghosts Haunt Swamps?

No, never. It's foolish to fear a fancied evil, when there are real and deadly perils to guard against in swamps and marshes, bayous and lowlands. These are the malaria germs that cause ague, chills and fever, weakness, aches in the bones and muscles and may induce deadly typhoid. But Electric Bitters destroys and casts out these vicious germs from the blood. "Three bottles drove all the malaria from my system," wrote Wm. Fretwell, of Lucama, N. C., "and I've had fine health ever since." Use this safe, sure remedy only, 50c at R. R. Bellamy's.

C., May 15.—Miss Emma Parrish left Friday to spend the Summer at Wallaceton, Va.——Miss Emily Kenon, who has been stopping at the Hotel Boney, left yesterday to spend a few days in Warsaw, N. C. ——Misses Ethel and Lilly Carter, of the Elms, have been spending a few days as the guests of Miss Wilmer Scott.——Mr. L. J. Sloan, of Chinquepin, spent yesterday in Wallace, the guest of Mr. Charles Hussey at the Hotel Boney.

* * *

BAZAAR AT HIGH SCHOOL PLANNED FOR THIS WEEK.

In the auditorium of the Wilmington High School Thursday, Friday and Satuday of this week will be held a bazaar, planned by the students as a benefit for the Athletic Association and for "The Sand Crab," the annual which the students will issue and have ready for delivery within two weeks. The annual promises to be a most creditable publication. There will be a country store, booths, and all the usual features of a bazaar. The pupils will be pleased to have donations from merchants and other friends of the school. Any who may wish to contribute something are asked to communicate with Prof. Heman Shaw, principal of the school, who will send some one for the donations. In connection with the bazaar there will be rendered pleasing programmes, participating in which will be the High School Orchestra. The public is cordially invited to attend.

—License was issued yesterday for the marriage of Daniel W. Orr and Miss Donie Roderick, daughter, of Mrs. Callie Roderick, the ceremony announced to take place at he home of the bride at 8 o'clock last night, Rev. J. P. King officiating.

Any Complexion Can Be Made Beautiful

(From Styles of Today.)

Mme. Merou, of Paris, perhaps the world's greatest authority on beauty, and dress, says that now no woman need despair of possessing a clear complexion and a satiny skin.

"Even a plain woman," says the famous Merou, "attains a complexion which is the envy of her friends when she dissolves a small original package of mayatone in eight ounces of witch hazel, and massages her face, arms and neck with this solution daily. You soon notice a lovely clearness which is sweetly enchanting.

Mayatone leaves no trace of grease or stickiness. It purifies, beautifies and preserves the complexion as nothing else can, and prevents the growth of superfluous hairs.

"You never use powder or cosmetic when once you know mayatone. Make the solution yourself. Your druggist can easily supply the ingredients, or he can easily send to any wholesale druggist for you, if he desires to be accommodating."

PERSONAL PARAGRAPHS.

—R. W. Herring, Esq., of Fayetteville, is spending a few days in Wilmington on legal business.

—L. V. Grady, Esq., of the law firm of Grady & Williamson, Whiteville, was among the arrivals in the city yesterday.

—Mr. Albert J. Beach, a clever young Wilmington salesman, has taken a position with Messrs. L. W. Davis & Co., where he would be glad to see his friends.

—Mr. R. F. Whitlock is in Fayetteville for a few days visiting friends and filling some engagements with the Fayetteville Band, playing the clarinet. He will return tomorrow.

—Mr. G. W. Smith, of Atkinson, left Wilmington yesterday morning for Little Rock, Ark., where he will attend the reunion of the veterans and also visit a sister.

—Dr. R. J. Willingham, of Richmond, Va., spent Sunday in the city on his way to the Southern Baptist Convention at Jacksonville, Fla., and was a guest of Dr. B. J. Willingham.

—Mr. John J. Blair, superintendent of the city schools, left this morning for Whiteville, where today he will deliver the commencement address at the closing exercises of the Whiteville High School.

—Mr. W. H. Alderman, of the First Baptist Church, this city, and Rev. A. C. Chaffin, as the representative of the Wilmington Baptist Association, leave this morning for Jacksonville, Fla., to attend the sessions of the Southern Baptist Convention.

—Among the arrivals at the Southern Hotel yesterday were the following: A. Taylor, Hamlet; M. W. Player, Bishopville, S. C.; C. Bright, Norfolk, Va.; L. E. Squires and W. F. Sanderlin, Councils; J. D. Durham, Burgaw; Lee Smith, Kelly; J. M. Flynn, Kelly; Mrs. J. P. Greene, Charlotte; Fred Caswell, Richmond, Va.; D. J. Corbett, Jr., Currie; W. B. Davis, Sneed's Ferry.

—Mayor Franklin P. White, of the progressive town of Shallotte, in Brunswick county, spent yesterday in the city on business with Hon. Brooke G. Empie, of the local bar. He also was on business for the new independent telephone line from Shallotte, the Wilmington headquarters of which for the present will be the store of Mr. J. W. Brooks.

Unable to Locate Participants.

Although he has been on the search for them ever since the occurrence, Constable Savage has not yet been able to locate the young white men who engaged in the cutting affray at Fourth and Castle streets late Saturday night, mention of which was made in Sunday's Star. L. W. Page and A. R. Robinson, young white men, were cut during the affair but not seriously. It is alleged that William Canady did the cutting. Very little is known of him by the officers except that he formerly lived at Delgado. It is said that there are three or four others implicated in the affair.

Removal Sale of the French Millinery Parlors. All goods at cost beginning Monday, May 15th. tf.

..Theatrical..

Grand Theatre.

Yesterday Grandites were given an opportunity of seeing what is perhaps the greatest motion picture ever produced, "Back to The Primitive." Those who saw it pronounced it wonderful. Today the Grand is presenting another picture equally as good, this one being called "The Quarrell on the Cliff." The scenes of this story are laid in Cuba and the rescue from the blank wall of the cliff is probably one of the most interesting and sensational sights that have been thrown on the screen in some time. There is also a comedy on the bill that was made by the Essany Company, entitled "the Bunco Game at Lizarhead." head.' Mr. Baldwin has a new illustrated song, and as an extra number will sing the old favorite "Annie Laurie."

At the Bijou.

As a brilliant center to a bunch of big and bright moving picture gems the popular Bijou will today offer a beautiful colored photo-play. It will be "American Beauties," and the costly film will be as beautiful as its name would imply. It is considered the rarest and prettiest piece of moving picture photograph ever turned out. This is only one of the stars. They are all features on today's programme. "The Samourai's Expiation" is a film of unusual merit. It is something excitingly fantastic. It has well been proclaimed the "Japanese Film d'Art." "The Snare of the City" is another film that grips the heart and, at the same time teaches a big lesson. Mr. Frank Banks' singing was a tremendous hit yesterday, as usual. For today this popular singer promises something else big and decidedly pleasing.

WHITEVILLE NEWS NOTES.

Music Recital a Success—Railroad Development—Commencement.

(Special Star Correspondence.)

Whiteville, N. C., May 15.—The concert given by Miss Pitt's music class Saturday evening was one of the most successful entertainments ever held in Whiteville. The auditorium was filled with a refined and discriminating audience, and for two hours they were delightfully entertained. The gold medal was awarded to Miss Mabel Maultsby, the gifted young daughter of Mr. E. A. Maultsby. Miss Maultsby's average for the year was 98. Mr. James Schulken was next, which was 96. Owing to the fact that Letha McKenzie, made near the same grade, a medal could not be given to any one from the little class of girls. But Hon. I. B. Tucker, who made the presentation in a happy address, asked these little ladies to stand up and paid them a high compliment. Miss Penelope Carter was loudly encored and called to the front again. She has one of the most cultured voices in the town. Miss Kathleen Baldwin was also called before the audience a second time. Little Miss Rachel Grady, the eight-year-old daughter of Mr. L. V. Grady, formerly of Wilmington, was loudly applauded. Last year she won the medal given by Miss Pitts. All of the pupils did admirably and the audience was delighted with the evening's entertainment. Miss Pitts left last evening on a visit to friends in Shelby, N. C. She will return to Whiteville before returning to her home near Richmond.

Miss Leila Memory, who has charge of the music department at the Buie's Creek Academy, has returned home, one of the most charming and accomplished young ladies.

Mr. Luther A. Blue, of Wilmington, reached Whiteville last evening. In conversation with the Star's correspondent Mr. Blue says the railroad to Elizabethtown will assuredly be extended to Southport, and arrangements are now being made to that end. But he does not know whether it will tap the Seaboard at Councils or East Arcadia, but is inclined to think it will be at Councils.

Whiteville is this week in gala attire, as the commencement exercises of our High School are in progress. The town is filled with visitors. The commencement sermon was preached last evening in the auditorium of the High School. The school is more strongly entrenched in the hearts of our people than ever before.

Farmers say crops are suffering badly from the Drought. There is very little cotton up as yet, and that is being killed by blue lice. Many farmers are planting over and hoping for a rain to bring up the seed.

PARLIAMENT FIGHT ENDS.

Over Veto Bill to Control Power of the Lords.

London, May 15.—The fight in the House of Commons over the veto bill to curtail the powers of the House of Lords, ended tonight. An amendment to reject the whole bill was defeated 363 to 243, and the measure was carried on its third reading 362 to 241.

The announcement was received with a tremendous outburst and applause and several of the ministerialists called out to the opposition: "Now toe the line and take it like men."

It is expected that the bill will go to the House of Lords at an early date.

Several Arrests Last Night.

Joe Pea, a colored barber, was arrested early last nigat on the charge of drunkenness. When searched a razz was found on him, so the additional charge of carrying a concealed weapon was made against him. Frank Mares and Archie Blue, colored, were arrested about 7 o'clock for gambling with cards. They were seen by an officer playing cards in a store. Dave Sterling, colored, was arrested late yesterday afternoon by Patrolman Leon George for violating the driving ordinance.

Pittsburg, May 15.—William McKelvy, a former councilman, was acquitted of the charge of bribery in connection with the bank depositors ordinance by a jury today in criminal court.

"Annie Laurie."

By request Mr. Baldwin will sing the famous ballad tonight—Grand Theatre. **

LOCAL DOTS.

—North Fourth street merchants request it stated that they will close their stores at 6:30 P. M., during the Summer, with the exception of Saturdays and the first, third and fifth of each month.

—The handsome new cottage of Mr. I. W. Temple on Wrightsville Beach, which has been in course of construction for some time, has been completed, and is now ready for occupancy. The cottage is located next to the Atlantic Yacht Club.

—Members of the Hibernian Benevolent Society are called to assemble at their hall tomorrow morning at 9 o'clock to attend the funeral of the late Frank P. Donlan. The Knights of Columbus and Elks will also attend the obsequies in a body.

—Within just eight days after the papers had been approved, Cornelius Harnett Council, R. A., on yesterday paid to Mrs. Rebecca Sternberger, the beneficiary, $3,000, the same being the amount of the policy carried by the late I. J. Sternberger in that order.

—The British steamer Kildale, which arrived at Southport last Saturday from the West coast of South America with cargo of nitrate of soda, is being lightered in order that she may come up the river without danger of going ashore. The steamer came across the bar drawing 34.9 feet of water. Some 400 tons of her cargo of 6,000 tons will be taken off.

—The following from Saturday's Greensboro Daily News will be read with interest by Wilmington friends: "H. Burkheimer yesterday received a card from his son, Walter, who, with Jack Hardin, is making a tour of the European section of the world. The card was mailed from Cork, and Mr. Burkheimer wrote that he had visited Killarney and Blarney castle and that he had just kissed the Blarney stone."

—People on the Castle Haynes road are complaining of much shooting and other disorder along this thoroughfare Sundays and Sunday nights. The sheriff's office is looking into complaints of residents and arrests are expected to follow unless there is improvement. Complaint is also made by residents on the Wrightsville turnpike that automobile parties late at night create much unnecessary noise in their flight to and from the sound.

Death of Good Negress.

Many white friends as well as a large circle among her own race, learned with regrt of the sudden death of Maria Halsley, commonly known as "Aunt Maria," which occurred at her home, No. 316 South Fourth street, Sunday. She had just returned from church and lay down across the bed to rest for a few minutes. She never got up again. A short time later she was found dead. "Aunt Maria" was about 75 years old and held the esteem of the white people as well as the colored within her acquaintance.

COTTON WEAK AND UNSETTLED

Under Selling by Leading Bull Brokers and Bear Pressure the Cause—Rapid Decline During the Day—Crops.

New York, May 15.—The cotton market was generally weak and unsettled yesterday under selling by leading bull brokers and local bear pressure inspired by lower cables than expected, continued good weather in the south and favorable private crop reports. The close was steady but at a net decline of 23 points on August, and at a net loss of from 2 to 14 points on other deliveries.

The market opened barely steady at a decline of two points on May and of 5 to 12 points on other positions in response to the lower cables and the favorable early weather map. At first there was enough demand from leading spot people and nervous shorts to absorb offerings around the initial prices and fluctuations for the first hour or so were comparatively narrow and irregular, but the steady selling of July by one of the prominent bull brokers and the favorable weather prospects led to increased offerings during the late forenoon and at one time the market was almost sensationally active and weak with August contracts selling down to 15.19, or 28 points below the closing figure of Saturday, while other crop positions showed net losses of from 16 to 22 points, and the new crop was about 8 to 11 points net lower.

A withdrawal was followed by a rally of several points from the lowest and while local bears turned sellers again around 15.72 for July, there was enough demand to steady the market in the late trading, with July closing at 15.70, or about eight points up from the lowest.

The outlook was for showers quite general in the belt, which was considered favorable, following the recent spell of dry warm weather, and it was said that a private crop report had been issued, showing an increase of 5 per cent in acreage and making the average condition 83.9 per cent., against last year's official condition report of 82. The revised acreage report of the department of agriculture places the area planted last year at 33,418,000, the area picked at 32,403,000, and the average yield per acre at 17.7 pounds.

Receipts today, 12,098 bales, against 13,253 last week, and 11,491 last year. Port receipts, 60,000 bales against 69,040 last week, and 74,768 last year. Today's receipts at New Orleans, 2,916, against 2,963 last year, and at Houston, 1,386, against 631 last year.

Spot cotton closed quiet, 20 points lower; Middling uplands, 15.80; middling gulf, 16.05; sales, 1,232 bales.

Futures opened barely steady and closed steady.

STOCK MARKET BARELY MOVED

Wall Street Passed the Day Awaiting Supreme Court Decisions—Trading Was Reduced to a Minimum—Features.

New York, May 15.—Trading in stocks was reduced to a minimum today and prices barely moved through the session. Wall street passed the day in awaiting word from Washington, in regard to decisions by the Supreme Court in the Standard Oil and American Tobacco cases. The tension was not relieved during the day, no definite word having been received from Washington at the close. Business was restricted to the smallest total of some time, but the market betrayed no nervousness, and the undertone was distinctly firm.

Thorough preparations had been made in the way of reduction of speculative commitments for the rendition of decisions and the market appeared to be braced to resist attack, should one be made. A feature of the trading was the scant supply of stocks, even in the issues in which there is always an active speculative interest. This was especially noticeable in the late afternoon when prices rose fractionally. Canadian Pacific moved up more than a point. Union Pacific made the best showing of the western roads, advancing substantially in response to a steady inquiry, which was reported to come in part at least from Paris. Buying of the Erie issues was resumed today, and Pennsylvania continued its downward movement. Statistics of imports for April revealed the expected falling off in values, which is ascribed largely to the possibility of changes in the tariff.

The decrease amounted to $13,000,000, and although exports fell off heavily, there was an excess of exports of $37,876,000, against an excess of imports in April of last year of $852,000. The April statement testifies again to the great change for the better in the foreign trade position of this country, resulting in the accumulation of huge credit balances abroad during the past few months.

Traffic officials of Western roads were reported as being more optimistic on account of the manner in which business is holding up.

Most of the Eastern roads have been running ahead of last year of late.

Bonds were irregular. Total sales, par value, $2,019,000. United States 2s and 4s, registered, declined ¼ on call. Total sales of stocks for the day, 146,900 shares.

SUNDAY SCHOOL RALLY.

Splendid Success of Sunbeam Society's Anual Entertainment.

(Special Star Correspondence.)

Atkinson, N. C., May 15.—The Sunbeam Society of the Baptist church Sunday school here, gave its annual rally yesterday, with a large and appreciative audience in atendance. A highly creditable and most delightful programme was presented, and all who participated won the highest praise from the well pleased audience.

The annual address was delivered by Postmaster Charles Larkins, who, in his happy and effective style, spoke upon "The great relations in private life are that of master and servant." He applied that to the predominance of sin over those who permit themselves to become its servant, and made a strong appeal to the boys and girls to beware of such a master. Close attention was paid to the wholesome advice he gave, and his address was a valuable one as well as interesting.

The music for the occasion was excellent, and it added greatly to the enjoyment and success of the affair.

Anderson, S. C., May 15.—Manager Kelly, of the Anderson Club, Carolina Association, today released Pitchers Farmer and Saultsinger and has signed Pitchers Scanlon, former with Macon; Crouch, formerly with Spartanburg, and McGowan, a youngster, who has been playing with the Presbyterian College, at Clinton, S. C.

DEEDS, NOT WORDS

Wilmington People Have Absolute Proof of Deeds at Home.

It's not words but deeds that prove true merit.

The deeds of Doan's Kidney Pills, For Wimington kidney sufferers, Have made their local reputation.

Proof lies in the testimony of Wilmington people who have been cured to stay cured.

Mrs. J. A. Boykin, 514 Princess St., Wilmington, N. C., says: "For a long time I suffered from backache and pains in my limbs. I could not stoop or lift without enduring much misery and despite all my efforts, I was unable to find relief until I got Doan's Kidney Pills at Bellamy's Drug Store. They entirely removed the aches and pains and I now have no cause for complaint."

(Statement given February 24th, 1908.)

No Trouble Since.

Mrs. Boykin was interviewed on December 27th, 1910, and she said: "I have no need of a kidney medicine since Doan's Kidney Pills cured me. I am willing to again recommend this remedy."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

OIL TRUST LOSES IN SUPREME COURT

(Continued from Page One.)

decision is expected on May 29th, the last decision day of the court until next October.

The opinion of the court today was construed to mean that the tobacco case, like every other case in which restraints of trade are alleged, must be subjected to the new test of reasonableness of the restraint, as laid down in the Standard Oil decision.

By far the greater portion of the opinion of the Chief Justice was devoted to the justification of the court in requiring that the "rule of reason" be applied to restraints in trade before they were held to be violations of the Sherman anti-trust law. The court found this justification in the common law of the forefathers and in the general law of the country at the time the Sherman anti-trust law was passed. In short, the court held that the technical words of the statute were to be given the meaning which these words had in the common law and in the law of the country at the time of the enactment. This meaning of the words, according to the court, called for the exercise of reason in determining what restraint on trade were prohibited.

Cabinet and "Trust Question."

Washington, May 15.—President Taft and his Cabinet tomorrow will take up the solution of the "trust question," brought sharply before them by the Standard Oil decision. Administration officials knew absolutely nothing as to what the Supreme Court would determine the case, but a decision in favor of the government was not unlooked for, especially by the President, Attorney General Wickersham, Secretary Knox and other lawyers in the cabinet.

Last Fall long before the final arguments in the case were made, Mr. Wickersham, with the approval of the President, framed a Federal incorporation bill, designed to permit the existence of legitimate combinations of capital, but so worded as to prohibit monopolies and subjecting corporations to government supervision. That measure was never pressed in Congress, although it was introduced. Its re-introduction in this Congress is a possibility.

The President had nothing to say about the decision tonight. He wished, he told callers, to first read it carefully, to discuss it with the cabinet and to dissect it with Mr. Wickersham.

The President received by telephone bulletins on the decision from the office of the clerk of the Supreme Court shortly after he reached Washington late this afternoon. He listened with interest to the bulletins handed to him and discussed them with Secretary Hilles. He did not see the complete decision until a half hour after the chief justice had finished reading. The White House had to send a messenger on a bicycle to the capitol to get one.

A Complete Victory.

Washington, May 15.—Commenting upon the Standard Oil decision tonight, Attorney General Wickersham said that the court unanimously affirms the decree rendered by the Circuit Court in favor of the government in every particular, save that it gives the defendants six months instead of 30 days time in which to comply with the decree.

"Substantially, every proposition contended for by the government in this case is affirmed by the Supreme Court," said the Attorney General in a statement issued by the Department.

Kellogg is Pleased.

"It is a complete victory for the government," said Frank B. Kellogg, who as special counsel for the government assisted in the prosecution of the Standard Oil case tonight. "I have read the opinion, hastily of course, but have seen enough to know that the government is sustained by the court on every point contended for."

Standard Officials Mum.

New York, May 15.—On the steps of the Standard Oil building at No. 26 Broadway there stood a newsboy this afternoon crying "Standard Oil loses!"

Inside not an officer of the company would speak. William Rockefeller seldom talks and did not break his rule. John D. Archbold is ill at his home in Tarrytown. Mortimer F. Elliot, solicitor general for the company, said that he would have nothing to say until he had read the full text of the decision, not available here tonight.

History of the Case.

The suit which called forth today's decision was instituted in 1906, in the United States Circuit Court for the Eastern District of Missouri. It was brought in the name of the United States. The immediate object was to dissolve the Standard Oil Company of New Jersey.

From the very beginning, the business and the legal worlds recognized that the suit put the Sherman anti-trust law to the most severe test to which it had been subjected. The law had been on the statute books since 1890 and had been the basis of some 18 suits finally passed upon by the Supreme Court of the United States. That the law was constitutional was accepted as settled by these decisions, but simple as the words of the statute seemed, there was an absence of unanimity in regard to its interpretation. With that situation confronting the government and the defendants, the suit was begun with the general belief that the entire business world would feel the effect of the outcome of the gigantic struggle.

Claim of Government.

The government claimed that two sections of the Sherman anti-trust law had been violated. The first section reads as follows:

"Every contract, combination in the form of trust or otherwise, or conspiracy, in restraint of trade or commerce among the several States, or with foreign nations, is hereby declared to be illegal."

The second section reads:

"Every persons (which subsequently was explained in the statute to include corporations) who shall monopolize, or attempt to monopolize or combine or conspire with any other person or persons, to monopolize, any part of trade or commerce among the several States, or with foreign nations, shall be deemed guilty of a misdemeanor."

The Standard Oil Company, of New Jersey, some 70 subsidiary corporations, John D. Rockefeller, William Rockefeller, Henry M. Flagler, Henry H. Rogers, John D. Archbold, Oliver H. Payne and Charles H. Pratt, all defendants in the suit, denied the charges.

Months were spent in gathering evidence. The general line of attack as shown by evidence presented by the government was this: It claimed that about 1870 the Rockefellers and Flagler conceived the idea of controlling the petroleum trade of the country, and a little later entered into a conspiracy with Rogers, Archbold, Payne and Pratt to gain a control of the oil business. To carry out this alleged conspiracy, it was claimed, they first "pooled" their interests, then put them into the hands of trustees, or "trusts" and finally when the trust of 1882 was declared "void" in a decision by the Ohio Supreme Court in a proceeding against the Standard Oil Company of Ohio, reorganized the Standard Oil Company of New Jersey, to take over their interests and to secure monopoly. Evidence of rebating, of price cutting, and of the organization of secret concerns to pose as independents was elicited to show that the Standard was seeking by unfair means to restrain trade and to procure a monopoly.

"Standard Oil" introduced evidence to show that there had never been such a conspiracy. It sought to prove that the Ohio Supreme Court did not hold the trust agreement of 1882 void, but merely required the Standard Oil Company of Ohio to withdraw from the "trust." Evidence was produced to show that rebating had been the order of the day among all commercial concerns, that price cutting and secret concerns were not the rule and were used as legitimate instruments of competition.

Circuit Court Decision.

The Circuit Court held that the reorganization of the Standard Oil Company of New Jersey in 1899 was not only a violation of the first section of the act, which referred to restraints of trade, but also of the second section, which applied to monopolizing. The Standard Oil had argued that there could be no additional restraint as a result of the reorganization because the Standard Oil Company of New Jersey was owned by a common body of owners in exactly the same proportion that all the subsidiary companies taken over by this new organization had been held by these same common owners for years past. The court held otherwise and said that the combination in a single corporation or person, by an exchange of stock, of the power of many stockholders holding the same proportions respectively of the majority of the stock of each of several corporations engaged in commerce in the same articles among the States, or with foreign nations, to restrict competition therein, rendered the power thus vested in the corporation or person greater, more easily exercised, more durable and more effective than that previously held by the stockholders. In these effects, the court found a restraint on commerce.

The court then proceeded to evolve a plan to remedy the situation. It entered a decree, enjoining the Standard Oil Company of New Jersey, from exercising any control, by reason of its stock ownership, over the subsidiary companies. Furthermore, it enjoined these subsidiary companies from paying any dividends to the Standard Oil Company of New Jersey. It put a provision in the decree to enjoin any possible evasion of the decree by the organization of a similar combination or of the conveyance of the property to one of the defendants. Unless the defendants should sever the relations and cease the combination within 30 days, they were to be enjoined from engaging in interstate commerce until they did cease the combination.

Landed in Supreme Court.

From the Circuit Court, the case was brought to the Supreme Court of the United States. The record laid before the higher tribunal probably was the largest ever prepared in an American case. The petition, pleadings, testimony, opinions and decree constituted 22 large volumes or more than 500 pages each.

The case was first argued before the Supreme Court in March, 1910, but it was restored to the docket for re-argument. The case was heard the second time in January, 1911, the latter time before a full bench. Noted attorneys appeared on either sides. For the government Attorney General Wickersham and Frank B. Kellogg, special assistant to the Attorney General, addressed the court. For the Standard Oil, there appeared John G. Johnson, of Philadelphia; John G. Milburn, of New York, and D. T. Watson, of Pittsburg.

In his address to the court, Mr. Kellogg, who took all the testimony in the case on behalf of the government, said that the Standard Oil organization was not a natural growth, but was born and reared in fraud and oppression, and "hangs over the commerce of this country today like a threatening cloud."

The Standard Oil Company of New Jersey, he told the court, controlled from 85 to 97 per cent. of the oil business of the country, with a financial power beyond that possessed by any other combination ever known. The combination, he added, was "made effective and powerful by reason of preferential rates and rebates in transportation, the greatest ever known to have been made and by unfair and brutal methods of competition, which in and of themselves between merchants and corner-grocery men would not be dangerous, but in the hands of a combination of this size and of this power, are the most dangerous instruments to independent dealers, manufacturers, and men engaging in enterprise known in commerce."

The other side of the contest was summarized by John G. Johnson, in the closing argument in the case. He declared that the country did not suffer by the mere largeness of the corporation, but profited. For the alleged sins that the corporation had committed, he argued, there existed an adequate remedy at law and therefore it was not necessary for equity to step in to dissolve the corporation. He denied that rebates were being accepted by the corporation now, or that it was cutting prices or organizing secret concerns, and characterized the government's references to them in the past as necessary to "give the proper color and raise the proper amount of indignation" in the case. He declared that the Standard Oil organization was the result of orderly growth

"Let the channels of commerce be open for all who may desire to enter," said he in closing, "whether with ocean steamer or with dugout, with Rockefeller wealth or naught, but their brains and their hands, unfettered with by the abuses of others, and all will have been done that is wise. Beyond that lies the antagonism of irresistible economic necessity, and danger of disaster the length and the breadth of which no man can foretell."

ACTION IN FAVOR OF LABOR LEADERS

(Continued from Page One.)

Court had decided the labor contempt case in favor of the defendants. Mr. Mitchell was en route from New York to Lancaster, Pa., where he will address a public meeting tonight on "the Philosophy, Purposes, and Ideals of the Trade Union Movement."

"I am, of course, pleased," said he, to learn that the decision has vindicated the contention of Messrs. Gompers, Morrison and myself and that the decisions of the lower courts have been reversed.

"Aside from the satisfaction of being vindicated and the happiness it brings to my family, I am gratified because it justifies the confidence given to us by a multitude of citizens both in and outside of the organized labor movement."

A Word From Gompers.

Washington, May 15.—"No officer of the government is warranted in the issuance of an order in conflict with the inherent, constitutional rights of the citizen," said President Gompers, of the American Federation of Labor today, commenting on President Taft's speech at Harrisburg, Pa., last night. Mr. Gompers declared that President Taft's order forbids association among government employes and the right of petition to Congress, and that the postoffice department has "discharged and victimized men because they dared unite in a lawful association and petition for redress of grievances."

Insisting that President Taft is wholly mistaken in his idea of the methods for the betterment of the condition of employes of the government, Mr. Gompers says that since men in the pay of the government cannot resort to the strike, as workmen in private establishments can when necessary their only means of presenting their needs or grievances is through petition for administrative or legislative action.

No Civil Action.

St. Louis, May 15.—The Bucks Stove & Range Company will not institute civil action against Samuel Gompers, John Mitchell and Frank Morrison, according to F. C. Gardner, chairman of the board, today. He said the company and the American Federation of Labor are on friendly terms. The case decided by the Supreme Court of the United States was prosecuted by the American Anti-Boycott Association, of which the Bucks Stove & Range Company is no longer a member.

Safety Appliance Decision.

Washington, D. C., May 15.—Railroads coming within the terms of the safety appliance acts of Congress in 1893 and 1903 are under an absolute duty to keep in repair automatic couplers and other appliances prescribed by law, and not merely a duty to exercise reasonable diligence in repairing. Such was the decision today of the Supreme Court of the United States.

By an odd coincidence, a number of vital questions concerning the scope of the Safety Appliance Acts of Congress came before the Supreme Court of the United States about the same time and were heard together.

One of these arose in the suit of F. M. Delk, a brakeman on the St. Louis & San Francisco Railroad Company, for injuries suffered while attempting to manipulate a defective coupler of a car on a switch in Memphis, Tenn. The United States Circuit Court of Appeals for the Sixth Circuit finally decided against Delk on the ground that while the railroad was under an absolute duty to equip cars with automatic couplers and other appliances required by the Safety Appliance Act, yet it was only under the common law duty to exercise reasonable diligence when it came to repairing the appliances. Delk had contended that the acts changed the common law duty so as to make the railroads absolutely liable for not repairing appliances required by the statutes, as well as for not equipping cars with the appliances.

The direct reverse of this holding was announced by the United States Circuit Court of Appeals for the Eighth Circuit, when the United States sought to recover from the Chicago, Burlington & Quincy Railway Company $100 for each of four alleged violations of the acts. There it was held that the railway company was under an absolute obligation to keep the safety appliances with which their cars must be equipped in repair. The railroad claimed that the court held them liable, notwithstanding the company did not know its cars were out of repair and had no intention to violate the law.

Another question was passed upon by the United States District Court of Colorado, when it held that the Colorado & Northwestern Railroad Co., a narrow gauge railroad, entirely within Boulder county, Colo., and said to be using locomotives and cars equipped with the old link and pin couplers was liable to the government for a violation of the law. In so doing the court held that it was not necessary to order to bring a connecting carrier within the Safety Appliance Acts for it to have an arrangement for a continuous transportation or shipment with the preceding carrier. The courts had always held that such had been necessary to bring a carrier within the interstate commerce act of 1887.

The United States District Court for Northern Alabama went even a step further. It held that the United States was entitled to a penalty from the Southern Railway Company for an alleged violation of the Safety Appliance law in a case where a shipment originating and ending within the State of Alabama, was carried in a car not properly equipped. The court held that this was a violation of the law because the car was used sometimes for interstate commerce, and therefore was an instrumentality of interstate commerce.

FIRE AT CARTERSVILLE.

Big Saw Mill Plant in South Carolina Burned Sunday.

Florence, S. C., May 15.—Fire at Cartersville yesterday almost wiped out the Cottingham Lumber Company's plant. The flames originated from the slab pile where a fire had been burning for some time, and it is thought that a spark was carried by the wind into the large pile of lumber nearby. The fire started about 1 o'clock yesterday afternoon at the time a very brisk wind was blowing, and the flames were hard to control. By hard work, however, the planing mill was saved, but the main plant, together with several thousand feet of lumber, the tram engine and a number of log cars and the water tank were destroyed.

It is not known how much insurance there was on the property.

The Cottingham Lumber Company's plant was sold some time ago to Evans & Carter of Maxton, N. C., but for the past several days it had been running on full time and a large lot of lumber had accumulated on the yard.

Richmond, Va., May 15.—Notwithstanding the fact that the State insurance commissioner has expressed the opinion that certain business practices of the Southeastern Underwriters' Association are not in conflict with the law of the State, the Virginia State Insurance Company and the Virginia Fire and Marine Insurance Company have withdrawn from the association, their view of the matter being the opposite of that of the commissioner.

Under No Circumstances

would we be afraid to have you compare our goods with any of our competitors, for experience has proven that our line is the most reliable that can be offered to buyers. In purchasing diamonds, watches or silverware, it is necessary to know the exact facts about them. We encourage "inquisitiveness" in our customers, and delight in telling them the plain truth about our goods. That, with courteous treatment has won solid, lasting friends for us, and we propose to keep it up.

A. O. SCHUSTER

JEWELER

Assets $1,600,000.00

4 Per Cent on Savings Deposits.

American National Bank

210 N. Front St., Wilmington, N. C.

NOTICE

Valuable piece of property for sale, at Private Sale until June 1st, 1911, and if not sold by that time it will be put up and sold at Auction. This property is located at 116 North Second Street, this city; has a new brick building, 148 feet deep, 50 feet wide, 17-inch wall, 35 feet high all round. The second floor is doubled floored with 2-nch tongue and grooved flooring; in fact, it is one of the best built buildings in the city, and on account of its location should bring a good price. It is opposite the Postoffice Square; in front of The Orton Hotel; only one block away, with a perfect view from Front street. This place has been used since it was built for a sales stable, and we find that we want more room to do a wholesale Horse and Mule business. Any further information, apply,

F. T. MILLS, Manager

WILMINGTON, N. C.

ICE! ICE!! ICE!!!

-:-YES-:-

ICE! ICE!! and ICE!!!

One might almost be led to believe that this community had never seen Pure Ice until this good year 1911.

A great man once said "there is nothing new under the sun" and this is so to a great extent when it comes to the manufacture of ice.

Now, as a matter of fact, The Independent Ice Company has been for ten years and is still making as pure, as clean, as healthful to use ice as can be found in all North Carolina. We defy anyone to prove to the contrary. Our prices are as low as the lowest. We give full guaranteed weight. Our service is the best Wilmington ever had. We have a polite, accommodating corps of officials who will thank any one to report any act of neglect or discourtesy on the part of our wagon drivers or helpers.

Do the right thing for yourselves and for ourselves by taking ice from the old reliable.

THE INDEPENDENT ICE CO.

The Atlantic Trust & Banking Co.

Is anxious to have you become one of its customers, and it Knows that it is better for you to have your money on

DEPOSIT AT FOUR PER CENT.

Than to keep the money hidden away in the house, where it is in danger of **Burglary and Fire.**

This Bank will extend every courtesy to its depositors, treating large and small accounts with the same consideration.

"The Bank that PAYS YOU TO SAVE."

TURPOILINE

CHEAPER THAN TURPENTINE

It is an odorless mineral product, which possesses great solvent power for paints and varnishes, has the requisite high flash for working and the clean evaporation which leaves the coating in perfect condition.

TURPOILINE makes a free flowing varnish, free from bloom. It flat colors better than turpentine.

TURPOILINE is thorough uniform; you can be assured of receiving the same product all the time.

TURPOILINE costs less and works well.

TURPOILINE is the most satisfactory product on the market for the paint and varnish man.

Try TURPOILINE. One thorough trial will convince you.
